236. Communication from the Senate of Belgium to the Speakers of the Senate and House of Commons of Canada.

(*Translation*).

BRUSSELS, BELGIUM, April 30, 1919.

The Speaker of the House of Commons,
The Speaker of the Senate,
Ottawa.

Mr. SPEAKER,—I beg to send you and request you to communicate to the Assembly over which you preside the text of the motion unanimously adopted by the Senate during its session of Tuesday, April 29, 1919.

The Senate of Belgium affected by the vote of the Paris Conference which disregards the claims of the City of Brussels to become the seat of the League of Nations, seriously preoccupied by the distressing condition to which the country has been reduced by this most cruel war and convinced that the numberless ruins which cover its territory cannot be restored by its own national resources, most anxiously appeals to your Assembly and implores it to intervene with the greatest possible energy in order to obtain that the solemn promises of prompt and complete restoration so frequently reiterated be now carried out in the spirit of broad equity and generous compassion which inspired them.

Relying upon the sentiments of solidarity which unite all civilized nations and upon the assurance of sincere and profound sympathy which your Assembly so kindly gave to Belgium, the Senate counts upon obtaining from your Assembly its powerful aid and effectual intervention in support of the legitimate and necessary atonements claimed from the Paris Conference for the restoration of this country.

Please accept, Mr. Speaker, the assurance of my greatest respect.

(Signed) Baron de PAVEREAU,
President of the Senate.

REPORT OF THE DEPUTY MINISTER

OTTAWA, March 31, 1918.

The Rt. Hon. Sir GEORGE E. FOSTER, P.C., K.C.M.G., M.P., etc.,
Minister of Trade and Commerce.

SIR,—In presenting the annual report of the Department of Trade and Commerce, the undersigned has the honour to state that in view of the very extensive changes made in the annual publications of the department this year by reason of war economies, and also by reason of an improved system for the co-ordination of trade and other statistics, it has been found desirable, in order to bring the Deputy Minister's report up to date, to combine two annual reports in one. This is necessary for the sake of continuity.

The annual report of the Deputy Minister of this department has usually accompanied Part I of the annual report, which covered "Canadian Trade-Imports into and Exports from Canada," but owing to the prolonged period required to issue this publication after the close of the fiscal year, which has been approximately from eight to ten months, the Deputy Minister's report has always been brought down to the close of the calendar year rather than for the fiscal year covered by the report itself. This report, therefore, may be regarded as covering the 25th and 26th annual reports of the Department of Trade and Commerce for the fiscal years ended March 31, 1917, and March 31, 1918.

Commencing with the annual report of this department for the fiscal year ended March 31, 1917, its publication in seven parts, as heretofore, will be discontinued.

CHANGES IN DEPARTMENTAL PUBLICATIONS.

The Deputy Minister's report heretofore appearing in Part I will appear, in future, as in this instance, as a separate administrative report of the department.

Part I will in future be known as "The Annual Report of the Trade of Canada," and will be issued by the Census and Statistics office.

Parts II and III, which heretofore contained the details of Canada's trade with British and Foreign countries, will be discontinued, as the new method of presenting the trade statistics in "The Annual Report of the Trade of Canada" renders the publication of these parts unnecessary. Manufacturers and others are interested only in specific articles, full statistics of the imports and exports of which are conveniently arranged in the Trade Report referred to. Special statements regarding principal articles of import or export of Canada from or to any other country, can always be furnished.

Part IV, heretofore containing miscellaneous information, in part only will be incorporated in the Deputy Minister's report in so far as the information heretofore published in that report is considered of special interest.

Part V, heretofore containing Grain Statistics, will be continued, not as Part V, but as the report of the Board of Grain Commissioners. The volume of the report, however, will be considerably reduced.

Part VI, relating to Mail Subsidies and Steamship Subventions, will be published, not as Part VI but as a supplement to the Deputy Minister's report.

Part VII, which contained the trade of British and foreign countries, will not be continued, as it has been found that by the time this publication has been compiled and printed the respective publications from many countries have been available for much later periods, and from which information has been obtained for the purpose of answering inquiries.

After the War.

The war has given an impetus to Canadian trade expansion unequalled in our history. In considering the coming of peace the question is put not infrequently to this department: "What are you doing to prepare for the commercial struggle that will follow the war?" This question and others can be put more appropriately to the business men of Canada: "What are you doing to prepare for the commercial struggle that will follow the war?" "Are you studying these possibilities? Are you studying every phase of the cost of your raw materials and what effect peace will have on supply, labour, transportation, and market?" The Government has its limitations. It can assist by pointing the way to foreign markets.

With the dawn of peace we must be prepared for an intense commercial competition. Indemnities or no indemnities, Canada must pay her debts. We must export. The Allies, when they emerge victorious, cannot hope to be repaid the enormous financial obligations they have incurred. We must look abroad to sell our goods in competition with the rest of the world—a competition which will be more intense than the world has ever known. No question before us to-day, other than the prosecution of the war, presents a more fruitful source of study. Thoughtful men and students in Canada interested in industrial problems, have a wide field before them, and the nation calls to them to assist in establishing definite policies of action with a view to placing Canada in a sound commercial position in the forefront of the race that is to come, for foreign markets.

Germany's Economic Position.

When hostilities cease and peace is declared, if the cartel systems of Germany be co-ordinated and in reality become not only nationalized, but also become State monopolies, as has been announced is the intention, private firms and individuals will find the most formidable possible competition in every market in the world. Such monopolies, backed up by the concentrated strength of all the banks of the German Empire, will be able to purchase in large quantities under the most favourable conditions, and to sell at prices and upon terms to render competition extremely difficult, if not impossible. Thus will Germany wage economic war.

When such commercial war begins, Germany will have its shipping, now locked up in its harbours, its factories unscathed by the ravages of war, and hundreds of thousands of labourers returning to commercial pursuits, ready to work for the merest living wage, but Germany must look abroad for many raw materials vitally necessary to her commercial existence, many of which she is dependent almost wholly upon her present enemies. To a lesser, though important, extent she is dependent upon the British Empire, and in many important respects upon Canada also. In fact, so far as Canada is concerned, apart from her grain exports, the nickle and asbestos production of the Dominion are greater than all the rest of the world put together.

In considering, however, the statement frequently made that the German factories will be ready at the close of the war to offer keen competition to the world, it may be well to draw attention to a more recent statement which, if true, considerably alters the general opinion as to Germany's position. That statement is to the effect that many factories in Germany which have not been engaged in war work, have been stripped bare of their machinery, which has been transferred elsewhere. Under these circum-

stances, a factory which has been closed down cannot be presumed to be able to resume work immediately on the restoration of peace. Such factories must be rehabilitated with new machinery, the manufacture of which will require considerable raw material.

Germany has come to the end of her tether in many vital raw materials not produced in enemy countries. Teuton factories are, and will be, more hungry, therefore, for raw materials when the war is over. Germany cannot manufacture without them. Does she deserve any contribution in raw materials from Canada? Germany, for her own domestic requirements and export trade, will be in the market for enormous supplies of raw materials which, with the demands of those portions of Europe which have been devastated, will tax for some considerable time the rest of the world to supply.

The most sanguine optimist, however, is now obliged to view the future with grave concern. A famine in Europe, accompanied by a serious dearth in raw materials, are not only possibilities, which cannot be disputed, but there is every evidence to indicate they cannot be averted.

ORGANIZATION IMPERATIVE.

Is it not, therefore, urgent that the various industries in Canada, especially those producing food and raw or semi-raw materials, should organize upon such a basis as will conserve these products for Canada and the Empire? If we let them go loosely to the first or highest bidder—and Germany with exhausted stocks of raw materials will be in the forefront as a buyer—the demand will naturally lead to extravagant prices, which of course will re-act upon ourselves and increase the cost of production and manufacture in Canada.

While no one can forecast what the conditions of business may be when the war is over, the time has arrived to prepare for every possible eventuality by widespread organization of every industry in Canada. Each industry should prepare complete and accurate statistics of the most exhaustive nature with respect to itself, so that if necessary such formation will be available not only during the progress of the war but also when the Government is called upon to study tariff problems at home and tariff arrangements abroad.

Such organizations are not inferred to be in the nature of trusts to dominate prices or to restrain trade in Canada, but for the purposes of assisting and advising the Government with all possible information in respect of such industry, and also engaging in export trade. Co-operation in export trade will be necessary to meet similar foreign export syndicates. Such combinations develop men of initiative and constructive genius, men of big business, men who acquire a grasp of the details of foreign trade exchanges, banking, transportation and competition, and men who have the sympathetic understanding of foreign peoples.

BELGIAN AND FRENCH LOSSES.

With a view to assisting to obtain some idea as to the enormous supplies that will be required in Belgium and France alone, it might be well to indicate some estimate of the destruction caused in these countries. Various attempts have been made to estimate the financial loss, but they were all made in the early part of the war, by Belgian and French statisticians. Based on their figures, the United States National Foreign Trade Council, in its report of the Fourth National Foreign Trade Convention at Pittsburg last year, compiled the following statement:—

	Belgium.	France.	Total.
Buildings	$ 200,000,000	$ 150,000,000	$ 350,000,000
Industrial machinery	800,000,000	550,000,000	1,350,000,000

Crops, live stock, etc	125,000,000	175,000,000	300,000,000
Industrial raw materials and ready stocks	525,000,000	375,000,000	900,000,000
Railroads	125,000,000	100,000,000	225,000,000

	$2,055,000,000	$1,680,000,000	$3,735,000,000

The loss of machinery approximately may be distributed amongst the different industrial groups as follows:—

	France.	Belgium.
Mining	$120,000,000	$130,000,000
Iron and metal industry	145,000,000	220,000,000

Papermaking	9,000,000	15,000,000
	$550,000,000	$800,000,000

EXPORT AND IMPORT TRADE RESTRICTIONS.

The trade difficulties which now confront the whole world present problems without number. Complications of the most intricate nature are made evident on every hand. The whole allied world, in which we are especially interested, has been obliged to impose both import and export restrictions for its own protection as well as in the general interests of the successful prosecution of the war. There are many in Canada who do not yet relaize the situation as it exists today.

In the beginning the United Kingdom authorities found it necessary to prohibit the export, except under license, of many articles which they themselves urgently required in other allied countries; in fact in some cases were not produced in such countries. In many cases substitutes have had to be found. Import prohibitions, except under license, were subsequently imposed in view of the necessity of conserving ocean tonnage, and also to enable closer control so that such materials could be used to the best advantage.

These restrictions were seriously felt in Canada, but shortly after the United States entered the war the Canadian manufacturers at once became acutely affected, and the Department of Trade and Commerce was required to greatly extend its activities in the protection of Canadian industries. While an enormous development took

place in the correspondence when the United States' prohibitions were proclaimed, the system, first devised when the United Kingdom imposed export restrictions, was not found wanting.

The British Ministry of Munitions asked the Department of Trade and Commerce at Ottawa, in the beginning, to assist them by examining all Canadian applications for materials required from the United Kingdom, and recommending such priority as to manufacture as it thought the urgency, necessities, and importance of each application warranted.

When the United States Government also put into effect export trade restrictions, practically the same system, though somewhat more complicated, was put into force. The Department of Trade and Commerce was requested by the United States War Trade Board to examine all claims from Canada for goods on the U.S. Conservation List for the purpose of endorsing the same. In the case, however, of the United States, the Canadian applicant, before he can obtain his goods, has either himself, or through the United States exporter, to make an application in many cases to three different bodies in Washington: the first, the United States War Trade Board, for an export license; the second, the Priority Committee of the Council of National Defence, for priority of manufacture; and the third, to the Car Conservation Commission, to move the goods from the manufacturer's plant. This is at times further complicated by applications being necessary to the Priority Committee and to the Car Conservation Commnission: first, for the semi-manufacture of materials required by the first manufacturer; and second, for the moving of raw materials to the United States plant for the manufacture of the goods required.

The shortage of wire rope in the United Kingdom became so acute about the end of 1917 that considerable difficulty was experienced in supplying the requirements of the lumber industry in British Columbia. Local wire-rope committees were therefore formed in Vancouver and Victoria to pass upon British priority applications for wire rope, and the Department of Trade and Commerce did not endorse any application for wire rope for the Pacific coast unless it has been first examined and approved by one of the British Columbia wire-rope communities. The department also obtained authority to commandeer stocks of wire rope in Canada at any time, and divert rope from less to more important uses, for war and other important national purposes.

Upon the establishment, however, of a War Trade Board in February of this year, all the above work with regard to import and export trade restrictions the Department was required to transfer to that Board, so that this work and other work incidental thereto might be co-ordinated under one body. This transfer was completed on March 31.

CANADIAN WOOL COMMISSION.

In the spring of 1917 it became evident that Canada was faced with a shortage in wool, and the commandeering of the wool clip of Australia and New Zealand rendered the question more acute. After prolonged negotiations the British Government asked the Canadian Government to appoint an agent in Australia and New Zealand for the purpose of making purchases for urgent Canadian requirements. The appointment of an agent did not commend itself to the Canadian interests, as such agent, already having connections in Canada, would be placed in advantageous position after the war.

The department therefore notified all the woollen interests in Canada to hold a meeting and appoint a committee for the purpose of dealing with the question.

The British Government allocated 16,300 bales of Australian, and 7,500 bales of New Zealand, wool to be exported to Canada, and the problem of distributing this in Canada to those in more urgent need, and preventing speculation and accumulation of stocks, presented considerable difficulties.

A meeting of the woollen manufacturers and dealers was held in Ottawa on the 19th April, 1917, and the following committee was named: Mr. Geo. Pattinson, of Preston, Ont.; Mr. F. B. Haynes, of Toronto, Ont.; Mr. Geo. Forbes, of Hespler, Ont.; Mr. C. W. Bates, of Carleton Place, Ont.; Mr. Jas. Rosamond, of Almonte, Ont.; Mr. I. Bonner, of Paris, Ont.

The committee subsequently appointed Mr. H. Hodgson permanent secretary with headquarters in the Canadian Manufacturers' Asssociation offices in Toronto, and subsequently this committee was recognized by both the Canadian and British Governments as the Canadian Wool Commission.

This commission, by agreement with the department, were to act in an advisory and honorary capacity only. It was arranged that the commission should ascertain immediately the quantities and qualities required by the various manufacturers and dealers in Canada, and also satisfy itself that the demands of each were not excessive.

Arrangements to obtain supply of Australian wool.

The department suggested, and the commission concurred, that arrangements should be made, if possible, with the British Government by which:—

1st. The Wool Commission should first approve of all orders sent to Australia and New Zealand by Canadian buyers through their regular agents in those countries, and notify the department accordingly.

2nd. That the Canadian Trade Commissioners in Melbourne and Auckland should be appointed agents for Canada.

3rd. That upon the approval of the orders by the Wool Commission, the Department of Trade and Commerce should cable the various orders to the Canadian Trade Commissioners named, and such trade commissioners would thereupon pass on such orders received through the Australian and New Zealand brokers, respectively, to the respective Wool Committees in Melbourne and Wellington.

This arrangement was subsequently concurred in by the British Authorities, and the following scheme was definitely agreed to between the British and Canadian Governments:—

(*a*) Government of Canada to guarantee to British Government payment of all purchases.

(*b*) Government of Canada through Canadian Wool Commission to appoint their agents Canadian Trade Commissioner in Melbourne and Auckland, through whom all orders were to pass to Australian Wool Committees, Canadian importers buying through their usual agents.

(*c*) Prices to be based on War Office (civil issue) price to British manufacturers less 2½ pence per pound.

(*d*) Australia and New Zealand Wool Committees to invoice wool on the grease prices fixed for clean scoured basis less 2½ pence per pound from such prices.

(*e*) The Minister of Trade and Commerce, Ottawa, to receive bills of lading and invoices and see that wool goes to approved purchasers. Bills of lading to contain the name of buyer. Wool to be sold free on board steamer *Australasia*, Canadian buyer to undertake to pay freight and cover all other expenses, including insurance.

(*f*) Money to be paid on presentation of the invoice, and deposited to the credit of British Treasury.

(*g*) Rate of exchange to be rate of $4.77 sterling.

It was thereupon arranged between the Department and the Wool Commission that as the Department was to guarantee the payment of the wool, the Wool Commission were, before approving of any orders, to require to be filed with the department bank credits in behalf of the various wool importers guaranteeing payment of the wool, and also guaranteeing on behalf of their respective customers payment of the freight, insurance, war risk, and duty on the relative shipments as they arrived. These bank credits were to prevent Canadian importers from ordering any wool which would not be paid for, including all charges, upon its arrival.

The invoices and bills of lading were to be presented to the department, together with the necessary bank draft, whereupon the department was to endorse the bill of lading and forward the credit to the British Treasury.

The arrangements outlined were completed and generally the wools which were shipped to the various Canadian industries turned out very satisfactorily. Naturally, many obstacles had to be overcome in the way of shipping difficulties, mode of payment, etc., as only a small percentage of the Canadian manufacturers were accustomed to arranging the finances by letter of credit.

The Wool Commission also satisfactorily arranged with the department and the Imperial Government the importation of wool tops for the worsted spinners, who were depending to a very great extent upon the combing industries in the Old Country. Shipments have come to the Canadian mills, and we are not aware of any machinery having had to stand for want of wool tops. And, further, arrangements have been completed for the year 1918 by which these worsted spinners in Canada are well satisfied with the proposed quantities which the Imperial Government have agreed to ship.

Arrangements have now been completed with the Imperial Government for the allocation of 25,000 bales of New Zealand and 20,000 bales of Australian wools for the 1918 season, and the Wool Commission has allocated this quantity to all Canadian manufacturers.

All the work in connection with the Wool Commission was on this date transferred to the War Trade Board.

CENSUS AND STATISTICS ACTIVITIES.

The operations of the census and statistics office under Mr. R. H. Coats, B.A., the Dominion Statistician and Controller of Census, have been of a most important and far-reaching nature. His efforts in the direction of the co-ordination of federal and provincial statistics have been carried on with untiring energy.

The most important work of the year was the completion of the Quinquennial Census of Population and Agriculture of the prairie provinces, taken as of date June 1, 1916, and the organization of an annual census of production—including agriculture, fisheries, forestry, mining, and manufactures—which was placed under the control of a new office division. Two other divisions, to deal with statistics of foreign and internal trade, respectively, were also created. In addition, the Canada Year Book, 1916-17, was issued, and the usual annual report on criminal statistics. Considerable progress was made in the general reorganization and centralization of statistics. A reference in more detail to these operations is given in the following:—

Completion of Quinquennial Census of Western Provinces.

The final compilations of the 1916 census were completed in November, 1917, and the temporary staff was for the most part dispensed with at that date. The following bulletins, etc., were issued in this connection:—

1. Press bulletin in October, 1916, showing the population of cities, towns, and villages.

2. A summary of agricultural acreages, showing the acres under the leading crops in each of the three provinces, December, 1916.

3. A similar press bulletin dealing with live stock, February, 1917.

4. The total population by electoral districts, May, 1917.

5. A final bulletin for Manitoba, dealing with both population and agriculture, May 3, 1917.

6. A similar bulletin for Saskatchewan, August 20, 1917.

7. A similar bulletin for Alberta, August 31, 1917.

8. A bulletin on Origins, Ages and Religions of the three provinces, September 12, 1917.

A final definitive volume, embodying all the results of the census, was in the press at the close of the year.

Organization of an Annual Census of Production.

For some time past the need has been felt for a comprehensive and thoroughly co-ordinated system of annual statistics of production—including agriculture, fisheries, forestry, mines, and general manufactures. In certain sections of the field, annual statistics have been issued by various Dominion and provincial departments, but divergencies in method have prevented comparability and co-ordination, overlapping to a to a considerable extent has occurred, at the same time that several important phases of production have been omitted. The decennial census, it is true, provided a comprehensive survey, but it occurred at too great intervals, and its organization, created primarily for the taking of the population census, was not entirely satisfactory when applied to industrial processes. It was accordingly decided, early in 1917, to create a new organization in the census and statistics office for the treatment of statistics of production, the organization to proceed in the first instance by collaborating, in so far as possible, with all departments, Dominion and Provincial, having executive functions in different sections of the field—so as to obtain the benefit of their technical knowledge and equipment and to avoid duplication of work and conflicting results—and by erecting independent machinery only in sections outside the range of administrative supervision. A brief review of the arrangements made in this connection is as follows:—

Agriculture.—By joint action of the Census Office and each of the Provincial Departments of Agriculture, returns relating to acreages under the principal crops and the number of live stock will be secured annually, in June, from individual farmers. A card has been agreed upon, to be printed by the Census Office, distributed by provincial machinery, and compiled by the Census Office for joint use. Co-operation in the securing of information with regard to farm conditions from month to month, and more particularly of yields per acre in August and September, has also been arranged. In Saskatchewan, full details for 36,000 farms were obtained in 1917, a proportion which places any estimate upon a reliable basis, and similarly successful arrangements in Quebec, Alberta, and British Columbia were carried out. In 1918 all the provinces will be included.

Beginning with the year 1917-18, the title of the "Census and Statistics Monthly" was changed to "Monthly Bulletin of Agricultural Statistics." The monthly will be devoted in future entirely to statistics of agriculture, the intention being to establish a quarterly publication for the treatment of general statistics.

Dairy Factories.—A schedule has been agreed upon between the various Provincial Dairying Branches and the Census Office, to be collected by the provincial machinery and compiled by the Dominion for common use. A Special Report on the Production of Creameries and Cheese Factories will be issued annually by the Census.

Fisheries.—The departments of Quebec and Ontario and the Dominion Department of Fisheries, which between them exercise executive control of the fisheries of Canada, have agreed with the Census Office in a common method and a joint report.

Forestry.—In forestry statistics similarly the existing provincial statistical agencies, the Forestry Branch of the Department of the Interior, and the Census have united on a plan of collecting and presenting annual statistics.

Hydro-Electric and other Central Power Plants.—For these establishments the arrangement involves the Census, the Dominion Water Power Branch, the Ontario Hydro-Electric Commission, the Quebec Streams Commission, the Maritime Water-power Association, and the Conservation Commission. Forms have been agreed on, to be collected and viséed by the local authorities, the Census effecting the compilations and issuing a report for the whole of Canada.

Mines—In mining, the Dominion Mines Department is co-operating with the Census under an arrangement whereby the former collects the statistics of production and the latter the statistics of capital, labour, etc., involved in the investigation. A general agreement involving co-operation with the provincial departments is contemplated.

General Manufactures.—In the general field of manufactures, which represents about two-thirds of the value of production, outside of agriculture, and where no administration machinery exists, the Census Office will work alone. A complete list of plants has been compiled with the assistance of provincial factories' inspectors, workmen's compensation boards, etc., and the information will be sought by correspondence and a small field staff.

Altogether, a staff ranging from ten to twenty-five, according to the pressure of the work, is employed.

Trade Statistics.

Organization of Foreign Trade Division.—Under Order in Council of December 6, 1916, the Trade Statistical Branch of the Department of Trade and Commerce was transferred to the Census Office as a division on foreign trade statistics. The annual report of the branch for 1916-17 had been previously reorganized and given a much improved form. Beginning with April, 1917, the Monthly Reports were also re-cast. It is hoped to enlarge and improve the work, in collaboration with the Department of Customs.

Internal Trade.—A division on statistics of internal trade was under organization during the year, and a general plan of treating the subject completed which it is expected will take form during 1918.

General.

Canada Year Book, 1916-17.—The Year Book was further enlarged and improved, the compilations being brought more to date than in previous years. The leading article of the issue was a comprehensive review of the natural resources of the Dominion.

Vital Statistics.—During 1917 a scheme of Vital Statistics for Canada was drawn up by the Census Office, and was the subject of an exchange of views between the office and the various provinces, the object being to secure uniformity of method as between the provinces, and the co-ordination of Dominion and Provincial interests. A conference to approve final action will be held during 1918.

Municipal Statistics.—Work of a preliminary character was done in the organization of Municipal and Education Statistics.

Patriotic Contributions.—The Office completed an investigation as to the amounts contributed by the people of Canada to various patriotic "causes" since the beginning of the war. Altogether over thirty organized funds have been established in Canada, and total contributions had approached $70,000,000 at the end of the third year of the war.

COMMERCIAL INTELLIGENCE SERVICE.

The work of the Commercial Intelligence Service, under the able superintendency of Mr. Watson Griffin, during the past year has been greatly hampered by the increased restrictions regarding exports and imports, and the lack of shipping facilities. In many cases where commercial relations between Canadian manufacturers and overseas importers were established through the medium of Canadian Trade Commissioners, actual business was prevented by these restrictions. In some cases, orders that had been accepted could not be filled on account of the impossibility of securing ocean transportation. In many other instances orders were declined on the ground that there was no ship space available.

Canadian manufacturers have recently shown a greatly increased interest in the question of export trade after the war and a number of confidential reports have been prepared by Canadian Trade Commissioners at the special request of manufacturers. In the early stages of the war Russia was the country which most interested manufacturers who were looking forward to export trade, but during the past year a large proportion of requests for information have been in reference to South American countries. Great interest has also been shown in the possibilities of export trade to the United Kingdom, Australia, New Zealand, South Africa, and the British West Indies when the war is over; and the Canadian Trade Commissioners in the United Kingdom and the other Dominions of the Empire have frequently been called upon to make special investigations as the result of inquiries received from manufacturers.

The correspondence of the Commercial Intelligence Branch during the past year was nearly five times as great as during the last year before the war.

New Office in Italy.

Mr. W. McL. Clarke who had taken a course of special training in the department to fit him for the duties of Canadian Trade Commissioner in Italy, opened his office in Milan last summer, and has already sent some valuable reports on Italian trade.

New Appointee to Japan.

Mr. Arthur E. Bryan, another of the young men who have been in training for overseas work, has left for Japan to take the position of Canadiana Trade Commissioner in Yokohama. As Mr Bryan spent his boyhood in Japan, where his father has for many years held an important position in educational work he has special qualification for the position of Trade Commissioner in that country.

Exhibition of Sample Articles.

With a view to helping Canadian manufacturers to understand the requirements of overseas markets, the Canadiana Trade Commissioners were instructed some time ago to get samples of articles in demand in the countries where they are stationed. After considerable delay resulting from war conditions, a building was secured at the

corner of Kent and Wellington streets, Ottawa, for a permanent exhibition of these commercial samples, and in the course of a few months a large number of articles will be ready for inspection by manufacturers. Each sample is numbered, and particulars regarding country of origin, methods of packing, prices, and other information will be kept on file for convenient reference.

Exhibition of Hides from India.

British India annually produces about eight million raw hides, of which about five million were exported annually to Germany and Austria prior to the war. The Hides and Tanning Materials Committee of the Imperial Institute is endeavouring to secure a market for these hides within the British Empire, and the Commercial Intelligence Branch of the Department of Trade and Commerce has been asked to co-operate so far as Canada is concerned. A number of hides have been received from the Imperial Institute, and have already been inspected by most of the tanners in the province of Ontario. They will be exhibited in other provinces where tanning industries exist. As the tanners who have inspected them agree that a more accurate opinion regarding the value of the hides could be obtained if some of the hides were tanned and placed beside the raw hides for exhibition purposes, arrangements have been made for the tanning of half the hides which were sent out by the Imperial Institute.

MOTION PICTURES.

The work of the department in the utilization of educational motion pictures for the purpose of screening Canada's vast natural resources, her primary productive occupations, and her development along the lines of secondary and industrial activities has made considerable progress. This work is in charge of Mr. B. E. Norrish, M.Sc.

The films prepared during 1916-17 illustrating the harvesting, inspection and transportation of grain, and the various water-powers of Canada, developed and undeveloped, have been screened before important groups of bankers, stock exchanges, boards of trade, educational institutions, and government officials throughout Canada, the United States, Great Britain, and New Zealand. As soon as prints are available, they will be forwarded to Australia, South Africa, and foreign countries interested in Canadian trade.

It is interesting to note that one complete set of the water-power films was despatched to London, England, at the special request of a member of the Inventions Board of the Admiralty, to be shown to high government and scientific officials, probably in connection with the solution of some war problems with special reference to the fixation of nitrogen.

In July the department undertook the preparation of eight reels of Canadian scenery, industrial activities, and pictures of a generally popular type. These pictures include "Typical Views of Canada from Coast to Coast," "Banff National Park," "Lake Louise," "Water-powers of Western Canada," "Water-powers of Eastern Canada," "The Great Natural Industries of Canada," "Agricultural Opportunities in Western Canada," and "How Canada and the Farmer Co-operate in Grain-raising." The series has had a wide circulation throughout the motion picture circuits of the United States, Great Britain and Australia.

It is considered that the net result of this propaganda will be, not only the harnessing of general public interest in foreign countries to our vast natural resources, but also the attraction of capital to the development of new water-powers and the location of new industries.

Suitable quarters for the carrying on of this work have recently been completed on Wellington street in Ottawa, and it is expected that in the future our operations will be extended to cover our remaining natural resources and some of our larger industrial activities.

Grain Inspection Service.

The Board of Grain Commissioners, under this department, have had many complicated problems to deal with in the administration of the Canada Grain Act during the past year, but the high quality of the grain materially reduced the difficulties which in the ordinary course surround the administration of this important branch of the service.

On the resignation of Dr. Magill, Chairman of the Board of Grain Commissioners, Mr. Leslie H. Boyd, K.C., of Montreal, was appointed Chairman of the Board by Order in Council of the 31st March, 1917. The other members of the Board are Mr. J. P. Jones and Mr. W. D. Staples.

The crop year 1916-17 has been the most phenomenal year in the history of the Canadian grain trade. Owing to the conditions prevailing in the United States, and the difference in the price of wheat in favour of the farmer of the United States, during the spring of 1917, the Canadian Government, by Order in Council dated the 16th of April, 1917, placed wheat, wheat flour, and semolina on the free list of imports into Canada, thus permitting the free export of Canadian wheat into the United States under the Wilson-Underwood tariff of 1913.

This would have given the farmers another market for their grain, but in the month of May, on account of the scarcity of contract grades and the great demand for the same by our Allies, prices rapidly advanced, and on the 3rd of May, the price of May option was $3.05 at Winnipeg. These conditions created a panic, which caused the Grain Exchange to discontinue all trading in May, June, and July futures. This condition of affairs resulted in the appointment of the Board of Grain Supervisors for Canada, with powers to fix the price of the season's crop and issue orders and regulations for its distribution.

Following these events, the introduction of sample markets again became a live issue. The Board of Grain Commissioners held a public session at Winnipeg in the month of June, which was attended by representatives of the grain growers, grain merchants, elevator companies, railway companies, boards of trade, and other interested parties from all over the western part of Canada.

Sample Markets.

Following this session the Board of Grain Commissioners recommended the introduction of sample markets to the Government, and, under section 57 of the Canada Grain Act, sample markets were inaugurated on the 1st of September, 1917. On account of the fixed prices and there being practically only one buyer, namely, the Wheat Export Company, on behalf of the Allies, sample markets have not developed as rapidly as the general public believed they would, but the Winnipeg Grain Exchange and the Port Arthur and Fort William Grain Exchanges have both made ample preparations for the successful operation of sample markets, and when conditions again become normal both these exchanges will have had an opportunity of perfecting their organizations to such an extent that it is believed the whole machinery of sample markets will run smoothly and will be able to cope with the large sample trading business which it is anticipated will then develop.

Grain of Superior Quality.

The movement of grain from the western provinces, and its inspection at Winnipeg, brought out the fact of the vastly superior quality of wheat in the last crop. Out of a total of 52,357 cars inspected in the Western Division during September and October, no less than 41,173 graded 3 Northern or better, 28,392 of these grading 1 Hard or

1 Northern. The Board of Grain Commissioners found a new condition of affairs as regards the oat crop, the oat crop this fall being exceedingly dirty, and the question of allowance for oat cleaning has been discussed with the trade.

The first week of September saw a strike of the terminal elevator labourers, which extended over a week and gave the Board of Grain Commissioners considerable worry, as the Board had undertaken to do its share in facilitating the movement of 100,000,000 bushels of wheat through the terminals for the use of our Allies before navigation closed, but the Government, under the War Measures Act, appointed a Director of Elevators, and the men went back to work under an arrangement which has worked out satisfactorily up to the present.

The loss of this week, owing to the strike, was serious, as the loading onto boats was subsequently delayed because there was not sufficient grain ahead in the houses to load the boats continuously, and the grain unloaded from cars had to be cleaned before being loaded onto the boats, thus tying up the boats pending the cleaning operations.

Trial Shipment via Panama Canal.

During the fall of 1917, the Board of Grain Commissioners, acting under directions of the Right Honourable Sir George E. Foster, Minister of Trade and Commerce, made the necessary arrangements with the Wheat Export Company to supply about 100,000 bushels of wheat to be shipped on the new steamer *War Viceroy*, as a test cargo, from Vancouver through the Panama canal to Liverpool. This wheat was inspected at Calgary in the cars, again from the cars into the government elevator at Vancouver, and then from the elevator into the steamer *Viceroy*. All necessary tests were made in order that an accurate record could be had of the condition of this grain prior to and at the time of its loading into the steamer. The cargo has arrived safely, and Mr. Alcock, the assistant to the board's chemist, Dr. Birchard, who accompanied the cargo, will make his official report, which will be of great interest to the grain trade generally.

Special Arrangements for the Despatch of Grain.

During January and February, on account of the car and motive-power shortage, by joint arrangement of the Board of Railway Commissioners, the Board of Grain Supervisors, the Wheat Export Company, and the Board of Grain Commissioners for Canada, for the purpose of facilitating the movement of wheat to the seaboard during the winter months, the Canadian Government elevator at Saskatoon has been working at full capacity on behalf of the Wheat Export Company, taking in over one hundred cars a day, and shipping out a similar number for all-rail shipment to St. John and other seaboard ports.

Embargo on Screenings.

The Board has also been much occupied with the question of screenings and the defining of stock food products as distinguished from refuse screenings, and in conjunction with the Department of Agriculture Stock Food Department, an embargo was placed on all screenings which came under the category of standard stock food products as defined by the Department of Agriculture, which has proven of great benefit and importance to stock breeders in Canada, and only such refuse screenings as were graded as such by the government inspectors were allowed to be exported.

Cars Inspected, etc.

The cars inspected in the Western Inspection Division from September 1 to January 31, 1918, were as follows:—

Wheat	98,434
Oats	15,461
Barley	4,856
Flax	2,765
Rye	340

The total receipts at Fort William and Port Arthur at all elevators from September 1 to December 31, 1917, amounted to:—

	Net Bushels.
Wheat	95,359,453
Oats	13,296,479
Barley	4,090,602
Flax	2,256,417
Rye	155,302

Port Arthur and Fort William, as a grain handling centre, has a very favourable standing. Chicago, with eighty elevators, has a bushel capacity of 55,236,000; Minneapolis and St. Paul, with fifty-nine elevators, has a bushel capacity of 53,395,000; and Fort William and Port Arthur, with twenty-nine elevators, has a bushel capacity of 49,370,000.

During the fall and early winter the board has also been occupied with the claims of returned soldiers for employment, and is giving, and will give, the returned men every consideration when qualified to do the work required.

The board has also been occupied for some time making the necessary arrangements to provide a military guard around the twenty-nine elevators at Fort William and Port Arthur, and this guard is now in effect.

THE BOARD OF GRAIN SUPERVISORS FOR CANADA.

The Board of Grain Supervisors for Canada was appointed June, 1917, under the War Measures Act, 1914, to supervise Canadian grain, with authority to establish prices, regulate distribution, and commandeer excepting on the farms.

The board is an honorary body of eleven members, appointed with special consideration to the interests of producers, the grain trade, the consuming public, and overseas purchasers, namely:—Chairman, Robert Magill, Winnipeg, Man.; H. W. Wood, Carstairs, Alta.; S. K. Rathwell, Moosejaw, Sask.; W. L. Best, Ottawa, Ont.; J. C. Gage, Winnipeg, Man.; W. R. Bawlf, Winnipeg, Man.; L. H. Clarke, Toronto, Ont.; W. A. Matheson, Winnipeg, Man.; Joseph Ainey, Montreal, Que.; James Stewart, Winnipeg, Man.; T. A. Crerar, Winnipeg, Man. Hon. T. A. Crerar resigned on entering the Government; Mr. W. F. Riddle, of Regina, was appointed in his stead

Preliminary Investigations.

Immediately following the creation of the board, and prior to the harvesting of the 1917 crop, public sessions were held in Montreal, Toronto, and Winnipeg, and inquiries generally were made with a view to establishing fair and just prices for Canadian grain, and a proper distribution thereof.

The Food Control authorities in the United States were conferred with, and the conclusions reached by them in investigations of a similar nature were carefully taken into account. It became apparent that there should be no considerable disparity in policy between the two countries.

Prices: Balance of 1916 Wheat Crop.

In July, 1917, the board set a maximum price on wheat, for the balance of the 1916 crop of $2.40 per bushel basis, Fort William; and placed a limited prohibition on shipment to the United States in order to discourage holding for higher prices and to make the wheat available for shipment overseas, where it was urgently needed. Later this price was converted into a minimum as well, up to the 31st August, 1917.

1917 Wheat Crop.

In early September the authorities in the United States established prices for their 1917 crop of wheat, based on the grades specified in their newly adopted Grain Standards Act. After deciding upon the advisability of having a parity in prices between the two countries, and after full consideration of the fairness to Canadian interests and overseas purchasers of the prices, the board adopted the United States prices for like grades of Canadian wheat in relative basic position, fixed, per bushel, as follows:—

Flour mills may pay one cent (1 cent) per bushel in excess of the fixed price to cover the cost of diversion to their mills.

Street Wheat.

The price of wheat to the farmer who sells by wagon load to the country elevator (commonly known as street wheat) called for very careful consideration and analysis in order to perform the duties of the board with respect to the fixing of uniform prices throughout Canada.

It was decided that a minimum should be set in order to assure a fair price to the small farmer, not in a position to ship his grain by the carload. The board heard considerable argument from the country elevator interests, turning on such matters as the cost of operation, the increased cost due to war conditions, the limited crop anticipated, and the necessity of utilizing the elevators to the maximum in order to move the crop with despatch. The conclusion reached was that the price of street wheat should be not more than five cents (5 cents) less than the fixed price, after deducting the cost of freight from the shipping point to the basic point.

Coarse Grains.

The board has worked in harmony with the Food Controller for Canada, the Dominion Government Seed Commissioner, the Grain Exchanges, and the authorities in the United States with respect to prices, distribution and conservation of oats, barley, and flax.

Carrying Charges Upon Street Wheat.

The gross revenue of five cents (5 cents) per bushel permitted the country elevator on street wheat does not include such items as cost of interest on the money invested in the wheat, nor the cost of insurance. In Canada this is a very considerable feature due to transportation conditions, particularly with respect to the winter closing of navigation on the Great Lakes. It was quite apparent that some fund should be created out of which the country elevators might be reimbursed for this expense, at least up to the time transportation facilities permitted of the movement of the wheat. The suggestion that an increment to the fixed price, month by month, be permitted met with two objections, namely: This increment after a period of months would put the Canadian price considerably above the United States price, thus creating a disparity which it was desirable to avoid; also the anticipation of a higher price in subsequent months might retard the movement of the wheat to the market.

The rate per bushel to be paid to the elevators called for considerable argument, such as the increased cost of money and the desirability to guard against establishing a figure which might include an earning to the elevator, which would be an inducement to hold back the wheat to create an earning, and yet it was essential that the elevator should not be required to suffer a loss, as it might result in them being closed up. A conclusion was finally reached that the carrying charge on street wheat should be one twenty-fifth of one cent (1/25 cent) per bushel per day, accruing from the time the wheat is purchased until it is delivered at the terminal elevator or mill.

The amount of carrying charges likely to be disbursed was liberally estimated and an assessment for the creation of a "Carrying Charge Fund," was ordered at the following rates:—

Assessment on Millers and Exporters.

Canadian millers, two cents (2 cents) per bushel upon the wheat ground. Exporters, four cents (4 cents) per bushel upon the wheat exported.

Provision was made, so far as possible, that these charges should be paid before the wheat was permitted shipped.

It was understood that as the Wheat Export Company, Limited, would be, by far, the largest contributaries to the fund, that they should be refunded the surplus after all carrying charges, as well as the cost of administration of the board had been provided for.

Carrying Charges on Wheat for Eastern Millers.

During the period of closed navigation, stocks of wheat are available to western millers from the country elevators as the mills require the wheat, without the necessity of the mills carrying large stocks themselves, whereas in Eastern Canada the mills for the most part must provide themselves with wheat before navigation closes, and carry the wheat throughout the winter, at their own expense, thus a disparity arises as between eastern and western millers.

To care for this disparity it was decided that the carrying charge fund should be enlarged to reimburse the eastern millers for the cost of carrying wheat during the winter months as follows:—

The assessment on the mills of Canada was increased from two cents (2 cents) per bushel to two and one-half cents (2½ cents) per bushel to provide for carrying charges as follows:—

Upon wheat stored between the 15th December, 1917, and the 30th April, 1918—

(*a*) In Eastern Public Elevators, one twenty-second of one cent (1/22 cent) per bushel per day.

(*b*) In Winter Storage Boats at Eastern Lake Ports, one twenty-fifth of one cent (1/25 cent) per bushel per day.

Additional Carrying Charge Fund to Stablize Flour Prices.

The fixed prices, the minimum rate of carrying charges, the anxiety of the Allied Governments for the wheat, with the consequent pressure brought to bear upon the railways, the elevator interests, and the farmers, all tended to deplete the stocks of wheat in Western Canada in such areas as the transportation facilities would permit. After the close of navigation it became apparent that some action should be taken to hold back wheat for the mills in Western Canada dependent upon the wheat from these depleted areas, but the wheat could not be held back without incurring a cost in carrying it, and the carrying charge for street wheat did not anticipate caring for this additional expense.

The Board conferred with the Millers' Committee of the Office of the Food Controller at Ottawa in early January, 1918, with respect to the whole question of carrying wheat for mills for the remainder of the crop season, it having been represented to the Board that the Food Controller wished to establish an unchangeable price for flour during the currency of the fixed prices on wheat. In order to accomplish this it became necessary to anticipate the full carrying charges that the wheat for the mills would bear up to the new crop. In order to defray this cost a new and "Additional Carying Charge Fund," was created by levying an assessment on all of the mills in Canada of one and one-half cents (1½ cents) per bushel upon all of the wheat ground up to the 31st August, 1918.

Carrying charges to be paid from this fund were decided upon as follows:—

Upon Wheat held by the Mills.

(*a*) In public terminal elevators at Fort William and/ or Port Arthur, one fourteenth of one cent (1/14 cent) per bushel per day.

(*b*) In winter storage boats, at Fort William and/ or Port Arthur, one twenty-fifth of one cent (1/25 cent) per bushel per day.

(*c*) In interior government terminal elevators, one twenty-fifth of one cent (1/25 cent) per bushel per day.

(*d*) In flour mill bins, excepting such portion of the wheat as is ordinarily required by the mill for a fortnight's grinding, one twenty-fifth of one cent (1/25 cent) per bushel per day.

(*e*) In country elevators, where ordered to be held by the board, one-thirteenth of one cent (1/13 cent) per bushel per day.

Administration of the Carrying Charge Fund.

Engagements were made with the Lake Shippers' Clearance Association and the Winnipeg Grain and Produce Exchange Clearing Association for the collection and disbursement, respectively, of the fund. Proper regulations have been effected by the Board providing for a daily accounting to the Board of the operations of the two associations, and government auditors engaged to conduct a continuous audit of the records. It is estimated that the funds handled will amount to between four and five million dollars.

Administrative Expenses.

As intimated above, the expenses of the board are being cared for out of the Carrying Charge Fund.

These expenses consist of:—

(*a*) Members' travelling expenses, when engaged in the work of the Board.

(*b*) The salaries of the secretary and staff of three persons, together with incidental expenses of the office.

(*c*) The agents of the board, the Lake Shippers' Clearance Association and the Winnipeg Grain and Produce Exchange Clearing Association, who have

volunteered their services on a basis of the cost of the additional staff and sundry expenses necessary to work involved.

(*d*) Auditors for the Wheat Export Company, Limited, who verify the accuracy of the statements rendered for the payment of the carrying charges.

(*e*) Auditors for the Dominion Government.

It is estimated that the total expenses will aggregate some forty thousand dollars ($40,000) per annum.

Wheat Movement up to the Close of Navigation.

Following the order of the board in July, 1917, prohibiting the export of wheat to the United States without the consent of the board, the Commissioner of Customs ordered that shipments of wheat should not be permitted to pass customs outports in Canada without being accompanied by a permit from the board, excepting shipments belonging to the Wheat Export Company, Limited. These regulations have continued in force, and the exports have been confined almost entirely to the Wheat Export Company, Limited.

Before the harvesting of the 1917 crop, the board met with the officials of the railroads in the west and received a joint signed undertaking from them to move one hundred million (100,000,000) bushels of wheat to the Great Lakes before the close of navigation.

The board, through its agents, the Winnipeg Grain and produce Exchange Clearing Association, obtained semi-monthly progress reports of the flow of wheat from the country to the terminals, as reported by the country elevators, and through this medium kept continuously posted as to what was being accomplished from time to time by the railways.

The Board of Railway Commissioners for Canada and the Canadian Railway Association for National Defence were consulted with from time to time and lent their authority to the movement, and the performance undertaken by the railways was practically accomplished by the close of navigation.

Wheat Movement All Rail to Eastern Canada.

After navigation closed the board met at Ottawa with Sir Henry Drayton, chairman of the Board of Railway Commissioners for Canada, and with the Millers' Committee of the office of the Food Controller for Canada, to arrange for the largest possible movement of wheat east, all-rail to the Atlantic seaboard and for distribution to the mills in Eastern Canada.

Plans were made for an all-rail movement east of not less than two hundred and fifty cars per day, of which one hundred and fifty per day were to be from Fort William and Port Arthur via the Canadian Pacific Railway and Canadian Northern Railway, and one hundred cars from Transcona, Man., via the Canadian Government Railway. It was decided to utilize the government elevators at Saskatoon and Transcona to provide a supply of wheat for the Canadian Government Railway movement. Sir Henry Drayton made the necessary arrangements with the railways, and the Board of Grain Supervisors for Canada issued orders restricting the shipment of wheat on the Grand Trunk Pacific Railway lines into the government elevator at Transcona, for the account of the Wheat Export Company, Limited, and on the Canadian Northern Railway lines west of Saskatoon into the government elevator at Saskatoon for account of the Wheat Export Company, Limited, for furtherance to the Canadian Government Railway via the Grand Trunk Pacific Railway.

These orders were also intended to relieve the areas on the Canadian Northern Railway where the elevators were congested and the farmers suffering a hardship in being unable to market their wheat.

The results anticipated were not accomplished, the movement east amounting to only about fifty per cent of what was planned.

The Millers' Committee recommended that the board provide for the distribution of wheat to eastern mills through the Wheat Export Company, Limited, and accordingly orders were issued that the stocks of wheat in public terminal elevators at Fort William and Port Arthur, and subsequent receipts therein up to the opening of navigation, be turned over to the Wheat Export Company. In Western Canada it was necessary to restrict wheat shipments to the mills in certain areas, and an order was issued on the Canadian Pacific Railway Company to restrict the shipment of wheat from certain subdivisions on its lines tributary to Moosejaw, Sask., into the Government elevator, Moosejaw, for account of the wheat Export Company, Limited, with whom arrangements have been made for distribution to the mills dependent upon it. The board has further ordered that the wheat on the Canadian Pacific Railway lines in southern Alberta shall be delivered only to mills in that area and/or the province of British Columbia.

SPECIAL TRADE MISSION REPORT.

In July last was issued the report of Special Trade Commission to the United Kingdom, France, and Italy. This commission made a thorough investigation into opportunities for trade between Canada and the countries mentioned, pursuant to an Order in Council of the 11th of May, 1916. 7,000 copies in English and 3,000 copies in French were issued, and have been given a wide distribution in Canada. Additional copies, however, are available should they be required.

FUEL CONTROLLER.

In July, 1916, an Order in Council was passed authorizing the appointment of a Fuel Controller and the necessary organization to deal with the question of the importation, distribution, production and consumption of coal. Mr. C. A. Magrath, D.T.S., was appointed to the position, and forthwith entered actively upon his duties. During the past year, regulations governing the sale and distribution of coal have been made, and a vast amount of import and consumption statistics in regard to fuel in the various provinces of Canada has been gathered and compiled so as to lay the foundation for intelligent administration. The late abnormally cold winter all over the more northerly part of the American continent added considerably to the difficulties of the Fuel Controller, but Canada came through that difficult period without any very serious dislocation of industry or suffering on the part of the public.

MAIL SUBSIDIES AND STEAMSHIP SUBVENTIONS.

During the past year a number of important services under subsidy by the department have been either entirely discontinued or considerably curtailed. Overseas services on the Atlantic especially have been affected, the acute shortage of tonnage resulting in the withdrawal from these services, for Admiralty purposes, of all the steamships heretofore made available by the respective companies under contract. The services, therefore, at present on the Atlantic to New Zealand, Australia, and South Africa have been discontinued. The service to the British West Indies has been materially reduced, and all the steamships heretofore performing services under contract to the United Kingdom have been taken over by the British Admiralty. This naturally has led to considerable hardships for Canadian exporters but they have loyally recognized that the needs of the Admiralty and the successful prosecution of the war must be given first consideration.

Some services within Canadian waters have also been discontinued, and at this writing there are important services which will require steamship communication during the coming season of navigation, but for which there are no available steamships in sight. It is hoped, however, that with the impetus given to wooden-shipbuilding,

there will be sailing ships made available, which will at least be able to provide reasonable communication for the duration of the war.

As previously stated, the report relating to Mail Subsidies and Steamship Subventions will not be published hereafter as Part VI of the report of this department, but will appear as a supplement to the Deputy Minister's report.

Review of the Trade of Canada.

In order to present a review of the trade of Canada to as late a period as possible, I propose to make some observations relative to Canadian trade for the twelve months ended December 31, 1917, contrasted with the trade for the last normal year prior to the war, viz., for the calendar year 1913. Appended to this report (Appendix A) will be found statistical tables showing:—

No. 1. Summary of the imports and exports of Canada, calendar years 1913 and 1917.

No. 2. Principal commodities imported into Canada, calendar years 1913 and 1917.

No. 3. Principal commodities exported from Canada, calendar years 1913 and 1917.

It will be noted by reference to table No. 1 (Appendix A) that the total trade of Canada—imports for consumption and exports of Canadian produce—amounted to $2,552,412,571 for the calendar year 1917, showing an increase of $1,457,130,633 or 133·1 per cent over that for the calendar year 1913. The imports in 1913 were valued at $659,063,871 and in 1917 at $1,005,071,716, showing an increase from 1913 to 1917 of $346,007,845, or 52·5 per cent, while the exports in 1913 amounted to $436,218,067, and 1917 to $1,547,340,855, representing an increase in the exports from 1913 to 1917, of $1,111,122,788, or 254·8 per cent. During this period the exports of the mine increased $18,316,796; the fisheries, $8,086,529; the forest, $9,748,202; animal produce, $118,949,315; agricultural products, $322,657,599; and manufactures, $628,420,819.

Imports into Canada, 1917.

An examination of the principal commodities imported into Canada for the calendar years, 1913 and 1917, (see table No. 2, Appendix A) will show that the increase in the imports from 1913 to 1917, of $346,007,845, was largely made up of increases in those classes of goods required for war purposes. The increase in the following classes of goods is quite marked:—

BINDER TWINE INSPECTION.

J. C. Waddell, Inspector of Binder Twine, Petrolia, Ont., reports as follows:—

The manufacturers of binder twine during the year 1917 experienced many difficulties in the manufacture of twine and cordage. War conditions have made it difficult to obtain fibre, and when the material was purchased the transportation of it to the mills caused serious delay.

The high price of sisal and manila fibre was expected to interfere with the output of binder twine, but you will be pleased to know that the figures placed before you for the year 1917 show a slight increase over the output of 1916.

The superintendents and managers of the twine mills have given every attention to their business, and were able to take care of the trade and keep their customers well supplied with twine during the season.

The catastrophe at Halifax caused considerable damage to the Consumers' Cordage Company's mill at Dartmouth; however, it is expected that the loss will not be as great as at first anticipated, and that the mill will be in good running order at an early date.

I have inspected the twine in all the factories and warehousess throughout the Dominion during the past year, and have found it up to the full standard of quality.

The total output for the year amounts to 13,022 tons, being an increase of 87 tons over the output of 1916.

The firms manufacturing twine are the same as last year, and their names are as follows: Consumers' Cordage Co., Montreal and Dartmouth; Brantford Cordage Co., Brantford, Ont.; Plymouth Cordage Co., Welland, Ont.

SUPERVISION OF CRUDE PETROLEUM BOUNTIES.

J. C. Waddell, Supervisor of Crude Petroleum Bounties, reports as follows:—

The price of crude oil has been higher, and the production has increased by some 6,000 barrels. The production for the year 1916 totalled 196,800 barrels, while this year's figures are very close to 203,000 barrels.

I have recorded each district separately so that on looking over the records any particular district will show whether the production has increased or declined during the year.*

A new and extensive oil field at North Glencoe, in the township of Moza, in the county of Middlesex, has created a great deal of interest among oil producers, and has already produced about 21,000 barrels. This field is the best located in years, and good results may be expected. Drilling operations will be very active for some years in that territory.

Below will be found the recapitulation in barrels and bounties paid for 1917:—

Barrels, 202,991.15 Bounties paid, $106,570.25

*Details can be had on application to the department.

GOLD AND SILVER MARKING ACT.

Mr. W. J. Ryan, Inspector of the Gold and Silver Marking Act, reports as follows:—

I beg to report the operations of the Gold and Silver Marking Act of Canada as administered by the Department of Trade and Commerce for the year 1917.

Though the Act has been administered by this department since April, 1913, it had only been rigidly enforced in the provinces of Ontario and Quebec and the city of Winnipeg.

The object of your inspector in confining himself to these districts was, that seven-eighths of the jewellery and silverware manufactured in, and imported into, Canada is done in these two provinces and the city of Winnipeg.

The manufacturing of silverware is confined almost entirely to Ontario, there being eight such manufacturers; the same might be said of the manufacturing of gold goods.

Then, apart from the manufacturing of silverware (sterling and electro-plate), there is the manufacturing of rolled gold plate, and gold-filled goods, a great portion of which is made in the province of Quebec. Such a policy has proved a good one; it has deterred those who might have been inclined to mark their goods other than in accordance with the Act. The constant scrutiny of your inspector on the manufacturers enables him to say that goods made in Canada are marked truly and correctly as required by the Act.

In Western Canada there is very little manufacturing of gold and silver, but considerable importing and jobbing is done, especially in the city of Winnipeg; consequently, it is necessary for your inspector to make an occasional trip of inspection to that city.

As a result of the good work that was done in these places where the Act was enforced, the trade in other sections of Canada were anxious that your inspector should extend his work.

Acting under instructions from the department, a trip of inspection was made through to the coast. The principal places where the trade was called upon were: Fort William, Port Arthur, Winnipeg, Brandon, Regina, Moosejaw, Saskatoon, Edmonton, Calgary, Vancouver, and Victoria.

Being the inspector's initial trip west of Winnipeg, the same treatment was accorded the trade there as was done in the East, i.e., when he found contraventions of the Act that were not deliberate, a warning was given that a repetition would mean prosecution. It was necessary, however, to prosecute eight dealers, for whose violations of the Act there was no excuse.

What little manufacturing is done in Western Canada is done in finger rings, and principally wedding rings, which are made mostly to order. Nine such makers of rings were found applying a trade mark that was not registered, as required by the Act. They immediately sent their application to the Department of Agriculture for registration. Six others, whose rings were found by assay to be of inferior quality to that implied by the marks on them, were brought into court and fined, and the rings confiscated and sent to the Royal Mint.

It is the opinion of your inspector that when the trade realize that the enforcing of the Act does not merely mean a fine, but also the confiscation of their goods, greater respect will be had for the Act and greater pains will be paid to see that the quality of the goods handled by them are what they represent to be to the public.

APPENDIX J.

LEAD BOUNTIES.

Mr. G. O. Buchanan, Supervisor of Lead Bounties, Port Haney, B.C., reports as follows, for the year 1917:—

The official quotations of the price of lead in London remained at £30.10 throughout the year, and, in consequence, no bounty became payable.

The returns made to me by the Consolidated Mining and Smelting Company, of Canada, show receipts of lead ores at their smelter in Trail, B.C., from mines in Canada, with lead contents of ..... 36,762,916 pounds

There was also received, from mines in the United States, ores with lead contents of ..... 10,871,192 "

Total lead, in lead ores ..... 47,634,108 pounds

There has also been received at the same smelter during the year, ores classed as zinc ores, having lead contents of ..... 23,101,424 pounds,

but the recovery of this lead remains a metallurgical problem, as yet imperfectly solved.

The mines that have made production of more than 100 tons each of lead, during year, have been the following: Sullivan, Bluebell, Standard, Queen Bess, Emerald, Surprise, Galena Farm, Paradise, Highland, St. Eugene, Florence, Van-Roi, Rambler, Cariboo, Coveroupee, Slocan Star, Cork-Province, Retalleck, Utica.

The principal shippers from the United States have been the Electric Point (8,478,177 pounds lead), the Hercules, and the Snowstorm.

A total of 108 properties have shipped ores with more or less of lead contents to the smelter during the year.

The period for which bounties upon lead have been provided by statute ends on June 30 of this year.

Contractors.—The Canadian Pacific Ocean Services, Limited, Montreal, Que.

Contract dated.—December 13, 1916.

Duration of contract.—From the close of navigation on the St. Lawrence, 1916, until the opening of navigation in 1917.

Owing to the uncertain shipping conditions occasioned by the war, this contract was not renewed, but an Order in Council was passed on the 7th June, 1917, authorizing that an arrangement be entered into with the following companies:—

The Canadian Pacific Ocean Services, Ltd., Montreal.
The White Star-Dominion Line, Montreal.
The Cunard Line, Montreal.

for a service of two round voyages each week, at a subsidy of $5,291 per round voyage, or half of the said sum for a single trip; the Post Office Department to employ the best steamships available among those provided by the respective companies for the carriage of the mails; the terminal ports to be the same as during 1916-17; the agreement to take effect from the opening of navigation 1917, and to be continued until the close of navigation on the St. Lawrence river in 1917. No limit was set as to stowage space for mails.

In December, 1917, a further arrangement was made with the above steamship companies, by which the best steamships sailing from St. John or Halifax would be utilized. The subsidy to be paid them was $11,363.63 per round trip for 25,000 cubic foot space occupied by the mails each way, and so in proportion for every additional cubic foot.

On July 5, 1918, an Order in Council was passed covering this service during the 1918 season of open navigation on the St. Lawrence, at a subsidy of $5,291 for each round voyage, irrespective of the space occupied by the mails; the said subsidy to be paid to such steamships as might be employed by the Post Office Department.

On November 29, 1918, an Order in Council was passed authorizing payment of subsidy for the coming winter season on the same terms as those of the previous winter, *i.e.*, $11,363.63 per round trip for 25,000 cubic feet of space in each direction, and proportionately for each additional foot occupied.

Ports of call.—

1. In Canada—Quebec *or* Montreal in summer, and St. John *or* Halifax in winter, at the option of the contractors.
2. In Great Britain—Liverpool; though the ports of Glasgow or London may be substituted with the approval of the Minister.

Mails.—To be carried free.

Subsidy.—$5,291 for each round voyage in summer; and $11,363.63 for each round voyage in winter for 25,000 cu. ft. mail space and so in proportion for every additional cubic foot.

PACIFIC OCEAN SERVICES.

CANADA AND AUSTRALIA OR NEW ZEALAND.

Union Steamship Company of New Zealand, Ltd.

Contract No. 27.

T. & C. File No. 21509.

Vote 145.—Steam Service between Canada and Australia or New Zealand, or both, on the Pacific Ocean—

1918-19	$180,509
1919-20	180,509

Contractors.—The Union Steamship Co., of New Zealand, Ltd.
(Canadian address: Canadian Australasian Royal Mail Line, 440 Seymour Street, Vancouver, B.C.)

Contract Dated.—July 12, 1916.

Duration of Contract.—August 1, 1916, to July 31, 1917. This contract was extended by Order in Council for a period of one year from August 1, 1917, under the same terms and conditions, and was again extended by Order in Council of August 23, 1918, until July 31, 1919.

Service.—Sailing every four weeks. Owing to war conditions, and the fact that only two mail vessels have been permitted by the shipping controller to remain on the service, it has been found impossible to keep up a regular sailing every four weeks during 1918; but sailings were made as frequently as was practicable. Each voyage was extended to Australia, although this was not required by the contract.

Ports of Call.—Vancouver, B.C., Victoria, B.C., Honolulu, in the Sandwich Islands, Suva, in the Fiji Islands and Auckland, N.Z.

If required by the Minister, each voyage from Canada to New Zealand shall be extended to a port or ports in Australia.

The call at Suva is conditional upon the Government of Fiji also continuing their contract for a like period and on the same terms as heretofore, and also upon their maintaining the same charges for light and other dues levied on ships employed in the service.

Speed required.—Duration of voyage is not to exceed 20 days, including one day's detention at Honolulu.

Subsidy.—£37,090 18s. 2d. per annum.

Provided that the contractors shall be entitled to receive such subsidy as the Governments of New Zealand and Fiji may pay towards the service; and also the Government of Australia, should the service be extended to that Commonwealth.

Deductions from Subsidy.—£30 are to be deducted from the amount of subsidy payable on each claim for every complete period of twenty-four hours by which the time occupied in conveyance of the mails between Auckland and Vancouver has exceeded twenty days.

Preference to Canadian Shippers.—No discrimination as regards freight or passenger rates is to be made against Canadian ports, railways, merchants or shippers. Canadian merchants and shippers are to have preference at all times for the carriage of their goods over other merchants and shippers, as far as regards the Canadian connection.

Mails.—To be carried free.

Canadian Trade Commissioners.—To be carried free.

Contractors.—The Canadian Pacific Railway Company, of Montreal, Que.

Date of Contract.—October 9, 1917.

Duration of Contract.—The latest contract expired on March 31, 1918. An Order in Council was passed on September 19, 1918, authorizing the payment of a subsidy of $12,000 per round voyage, from April 1, 1918 to March 31, 1919, for 15,000 cubic feet of mail space on the *Monteagle* and *Key West*, and 10,000 cubic feet on the *Empress of Japan;* any additional space occupied by mail matter to be paid for at the rate of 40 cents per cubic foot on the *Monteagle* and *Key West*, and 60 cents per cubic foot on the *Empress of Japan*. The following clauses of the contract are to be held good until March 31, 1919, as far as they can possibly apply.

SOME CLAUSES COMMON TO ALL CONTRACTS.

NOTE.—Some of the principal sections common to all contracts, and as such hereinbefore frequently referred to, read as follows:—

Proof of Performance of Service to be Furnished.

The contractors shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence as soon after the completion of each voyage as may be, furnish to the Minister full and complete copies of the manifests of the cargoes and lists of passengers carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the Minister to show the volume, extent and value of the trade carried on by the said steamers and the full performance on their part of services, requirements and conditions of this contract, in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with, within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified shall be a condition, precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the Minister, all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable such portion thereof as he may deem fit and proper, taking into consideration all the circumstances connected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the Minister with regard to the said steamers in the performance of this contract.

Financial Statements.

It is further understood and agreed that the contractors whenever so required shall furnish the Minister with such financial statement or statements as he may desire from time to time respecting all revenues derived from and all expenditures in connection with the conduct of the service herein provided for.

British Subjects.

It is further understood and agreed by the contractors, that two-thirds of the total number of officers, engineers, stewards, crew or other employees whatsoever upon the steamships engaged in the performance of the service herein contracted for, shall be British subjects, but the non-observance of this clause shall not constitute a violation of this contract in such individual cases as may from time to time be approved by the Minister in writing.

Equipment of Steamers.

The steamers to be employed as herein specified, shall at all times during the continuance of this contract be fully seaworthy, well-officered, manned, victualled, equipped, provided and furnished, having regard to the service which the contractors have hereby undertaken to perform; and shall have ample and suitable accommodation for the passengers, mails and freight to be carried over the route specified; and shall at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the Minister.

Carriage of Mails.

The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf or under the direction of the postal authorities of Canada, or those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destination at the terminal port or ports of call above referred to; and the expenses of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

Accommodation for Mails.

The said steamers shall be provided with sufficient and convenient accommodation and protection for all such mails, to the satisfaction of the Honourable the Postmaster General of Canada for the time being, and the contractor shall further take all reasonable and necessary precautions for the protection of such mails, while upon the said steamers or while in the contractor's charge or custody, from loss, damage or injury, in any way, and the contractors shall be responsible for any loss or damage thereto caused by negligence or want of proper care or accommodation on the part of the contractors, their agents or servants or on the part of the officers, employees or crew on board the said steamers, and this without regard to any question, as to the legal liability of the Postmaster General to the owners of the articles of mail matter contained in such mails for damage or loss sustained in transit.

Definition of term "Mails."

The expression "mails" for the purpose of this contract shall be deemed to mean and include all boxes, bags, baskets or packets of or containing letters, post cards, newspapers, parcels, books, or printed papers, and all other articles which under the Post Office Act and postal regulations for the time being in force are transmissible by post in Canada, without regard to place either of origin or destination, and also all empty bags, empty boxes and other receptacles, stores and articles used or to be used in carrying on the post office service, or which shall ordinarily be sent by or to or from the offices.

No Letters except H. M. Mails to be Carried.

The contractors shall not, nor shall any of their agents or servants, or officers or crews of the said steamers receive or permit to be received on board of the said steamers any letters for conveyance other than those contained in His Majesty's mails, or which are or may be privileged by law, nor the mails of any other country, except such as are specified by the Postmaster General of Canada for the time being.

Government officials to be carried free of Charge.

The Honourable the Postmaster General of Canada, or the Honourable the Minister of Trade and Commerce for the time being, or any inspector or officer of the Post Office Department or the Department of Trade and Commerce, who may in the execution of his duty travel in the said steamers, shall be carried free of charge.

Proper accounts to be Kept.

The contractors shall keep full and proper accounts of and in connection with the working of this service, and shall keep such accounts separate and distinct from any other accounts of or connected with other branches of their business; and in any contingency which, in the opinion of the minister, may render such a course necessary, the contractors shall allow any officer or officers named by the minister free access to such accounts and all books, papers and documents connected therewith.

Substitute for Disabled Steamers.

It is understood that if the said steamer shall be by peril of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing the voyages herein agreed to be performed according to the true intent and meaning of these presents, the contractors may in such case as soon as reasonably may be, having regard to the circumstances, replace the said steamer by another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister in case the said steamer has been only temporarily disabled, and continue the service herein contracted for with such substituted or repaired steamer with as little delay as possible under all circumstances.

Freight and Passenger Tariffs—Proof of Performance of Service to be Furnished.

The contractors shall carry on each steamer running under this contract, according to its capacity, on all voyages, all the freight and passengers which may be reasonably offered or obtained, and at tariff rates, both as to passengers and freight, which may be from time to time approved by the minister; and the contractors shall furnish to the minister such documents, information and evidence as may be required by the minister, to show the volume, extent and value of the trade carried on by the said steamer, and such customs certificates, documents and evidence as may be necessary or as may be required by the minister to prove the performance of the service herein contracted for, and to enable the minister to judge as to whether this contract is being carefully and faithfully carried out and performed and the furnishing of such certificates, documents, information and evidence, as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for or any portion thereof.

Deductions from Subsidy—Time-tables to be furnished—Docking Disabled Steamers.

Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the Minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract furnish to the Minister time-tables showing the proposed sailings, and upon the same being approved by the Minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the Minister, does not sail from a terminal port as herein specified within of the date fixed by such time-tables, there shall be deducted from

the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the Minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so; it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of the subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

Freight and Passenger Rates to be Approved by the Minister.

(Inserted in contracts for ocean services only.)

The contractors shall at least three weeks prior to the first sailing under this contract, furnish to the Minister a schedule of the freight rates proposed which schedule shall be subject to the approval of the Minister, and after being approved by him shall not be changed except with his consent; and the Minister may at any time, if he deem it advisable, fix the maximum rates to be charged between the different ports, on both east and westbound trips, on any article or class of goods, and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the Minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly, against Canadian merchants, or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on eastbound trips, sailing from or as hereinbefore provided, on through bills of lading from any place in the provinces of Ontario and Quebec, or from any Canadian points farther west, shall in no case be greater than from the same place to *via* any United States route or port; and on westbound trips the rates from to any place in Ontario or Quebec, or other Canadian points farther west, shall be as favourable as *via* any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of or and aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of the fact being furnished to the Minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

Publicity of Tariff Charges.

The freight and passenger rates charged by the contractors over said route may at any time be required to be approved of by the Minister, whose decision shall be final, and the said freight and passenger rates shall be made available at all times to the public at the head office and the agencies of the contractors.

Calls at Foreign Ports.

The steamer employed in carrying out the provisions of this contract shall not on any of its trips call at any foreign port not specified in this contract.

Carrying of nitro-glycerine or dangerous articles.

The contractor shall not convey or permit to be conveyed in any steamer while employed in this service any nitro-glycerine or any other article which in the opinion of the Minister shall be considered dangerous.

Subsidy subject to vote of Canadian Parliament.

It is conditioned, declared and agreed that the payment of subsidy, as hereinbefore stipulated, is subject to the amount specified being provided for the purpose by a vote of the parliament of Canada, and that if no amount is voted for the purpose, or if any amount voted has become exhausted in payment thereof, and no further sum is voted for the purpose, this contract or agreement shall terminate and become void and of no effect, and the party of the first part shall not in consequence be held liable to damage.

Minister's right to Terminate Contract.

It is declared to be the true intent and meaning of these presents, that the Minister shall have the right at any time during the continuance of this contract, upon 30 days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the Minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the Minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.

Assignment of Contract.

This contract shall not, nor shall any right or interest therein be assigned without the consent in writing of the Minister to such assignment having been first obtained.

Canadian Members of Parliament not Admitted to Share in Contract.

It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

Changes in Contract.

The minister may authorize any change or changes in the terms of this contract as may not be inconsistent with the vote providing for the payment of the subsidy.

Minister to be final judge as to full carrying out of contract.

The minister shall at all times be the judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive.

Transportation of Trade Commissioners.

(Inserted in contracts for ocean services.)

The Canadian Trade Commissioners and their wives, children and servants, or Canadian Commercial Agents, shall be granted free transportation, meals included, with first-class accommodation and free transportation for their household effects, upon any steamships employed by the contractors in the performance of this contract when requested so to do by the Minister, and when the said Commissioner or Commercial Agent is travelling upon his official duties or being transferred from one official post to another.

Intercolonial Railway Clause.

(Inserted in contracts for Atlantic ocean services.)

It is hereby agreed by the contractors that as the aid herein expressed and provided for by the Canadian Government is for the express purpose of encouraging the development of Canadian trade and the transportation of Canadian goods through Canadian channels the Company accepts the aid on these conditions, and agrees that all freight booked or carried by the said steamships from a port in the United Kingdom and during the time these make Halifax or St. John their terminal port, shall, when not otherwise expressly routed by shippers or consignees, be delivered to the Intercolonial Railway at Halifax or St. John for shipment to final destination in Canada, provided that the rates demanded by the Intercolonial Railway shall not be in excess of the rates charged by any other railway company from said ports to final destination in Canada.

(*a*) Contractors are to hand over to the Intercolonial Railway at Halifax passengers for points in the Maritime Provinces or the Province of Quebec, providing the route of such passengers is controlled by the contractors and that they are not otherwise routed. It is further agreed that the contractors through their agents in Canada shall see that they have all such freight for export as may be secured by them for a port in the United Kingdom at which the subsidized line may call delivered to the Intercolonial Railway at Montreal.

Calls at Government Wharves.

(Inserted in contracts for local services.)

In consideration of the subsidy herein stipulated the contractors agree to call at all Government wharves when such is practicable and when such wharves are available.

Handling of perishable products.

(Inserted in contracts for Atlantic ocean services.)

The handling, loading, stowing and unloading of any fruit or perishable products carried by the said vessels shall be subject to and under the supervision of any cargo inspector or other officer appointed for that purpose, should the Minister of Agriculture for Canada deem it advisable.

EXPLANATORY NOTES.

In this report, throughout, the term "Imports" means "Imports for Consumption."

The term "Entered for Consumption" is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value given for goods imported is the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were exported directly to Canada.

The term "Canadian Produce" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

The term "Foreign Produce" applies to the exports of foreign goods which had been previously imported.

The value of "Canadian Produce" is its value at the time of exportation at the ports of Canada whence shipped.

The value of "Foreign Produce" is the actual cost of such goods.

The initials N.E.S. mean "not elsewhere specified."

The initials N.O.P. mean "not otherwise provided for."

The expression "Ton" means two thousand pounds, and "Cwt." one hundred pounds.

COPY OF MINUTES OF WESTERN GRAIN STANDARDS BOARD MEETING.

WINNIPEG, Man., October 25, 1918.

The Board of Grain Commissioners, Fort William., Ont.

DEAR SIRS,—I beg to report that the Standards Board met yesterday and selected samples for commercial grades of Nos. 4, 5, and 6 wheat, with a provision that all wheat not fit to be graded No. 6 be graded as "Feed" in the discretion of the inspector.

Further, the provision that "Feed Barley" shall include all damaged barley weighing less than 42 pounds to the bushel, in the discretion of the inspector.

The board also passed the following resolution regarding substitutes for wheat flour:—

Resolution of the Western Grain Standards Board relative to the present policy of the Canada Food Board in regard to substitutes for Wheat Flour.—Passed October 24, 1918.

Whereas, the grain crop of the Prairie Provinces is being moved slowly because of labour and other transportation conditions;

And Whereas, large areas in Alberta and Saskatchewan are short of oats, and it is difficult to secure oats either for seed or for milling purposes, or for feed, and much more for substitutes, except at a very high price; and the same applies to barley;

And Whereas, it is not economical, either as regards transportation facilities or financial cost, to import into the Prairie Provinces foodstuffs either from the United States or from Eastern Canada;

It is therefore hereby resolved by the Grain Standards Board, that while it is desirable as far as practicable for the people of Western Provinces to support the allied policy of the common loaf, yet, under the actual conditions now existing in the Prairie Provinces, any attempt at enforcing this will cause, and indeed has already caused, much inconvenience and loss to the people of these provinces in general; will cause inconvenience and loss to milling and distributing industries, will tend to increase the tax upon the heavily burdened transportation facilities that are available, and at the same time will not really, to any appreciable degree, promote the conservation of food, and the Canadian Food Board is hereby requested to take into consideration the advisability of an alternative procedure for the Western Provinces, namely, the non-importation of substitutes for wheat into the Western Provinces, and the promotion of wheat conservation by an increased flour extraction.

C. N. Bell, *Secretary.*

CHAPTER II.

REPORT OF MR. GEO. SERLS, CHIEF GRAIN INSPECTOR.

To the Board of Grain Commissioners.

GENTLEMEN,—Herewith I submit to you my annual report for the crop year ending August 31, 1918.

WESTERN INSPECTION DIVISION.

There were inspected for the crop of 1917-18 a total of 171,080 cars, made up as follows:—

127,765	cars	wheat	4,476	cars	flax
30,088	"	oats	531	"	rye
7,380	"	barley	840	"	screenings.

The number of cars inspected at each inspection point was as follows:—

Winnipeg	146,716
Calgary	8,442
Moosejaw	4,682
Saskatoon	7,441
Medicine Hat	3,019
Vancouver	69
Superior	714

The quality of the wheat of this crop was exceptionally good, 84 per cent grading into the contract grades.

EASTERN INSPECTION DIVISION.

The work done in the Eastern Division for the crop year 1917-18 was considerably in excess of the previous year.

Montreal was practically self-sustaining, showing a small deficit of only $137.69. At Toronto, while the volume of work done was greater than the previous year, there was a considerable deficit, amounting to $2,253.67. This is accounted for by the fact that the railway yards where the sampling is done are very far apart, which makes the cost of doing the work greater than the revenue derived.

Yours truly,

GEO. SERLS.

CHAPTER III.

REPORT OF THE CHIEF WEIGHMASTER, J. G. WHITE.

To the Board of Grain Commissioners.

GENTLEMEN,—Herewith I beg to submit my report for the year ending August 31, 1918.

SCALES.

There are at present one hundred and eighty-four (184) scales in use in the elevators at Fort William and Port Arthur, an increase of four (4) over last year. Owing to the closing of C.N. " B " and Horns elevators, fifteen (15) scales went out of use, and nineteen (19) scales were installed in the new elevators erected, viz., eight (8) in the Saskatchewan Co-operative, four (4) in the Canadian Feed Milling Company, and seven (7) in the Eastern Terminal, Port Arthur, which, with the thirty-nine (39) scales in the Government Interior Terminals, make a total of two hundred and twenty-three (223) scales under my jurisdiction and subject to my inspection.

SCALE INSPECTION.

All scales have been kept accurate and in first-class repair and have had two (2) thorough inspections during the year, in addition to which there have been a number of special tests made where the accuracy of weights was in question.

One of these was the regular annual inspection provided for by Regulation 13 of the Weights and Measures Act, and for this inspection certificates of verification were issued and fees covering were collected and remitted to the inspectors of the different Divisions, as follows:—

For Fort William and Port Arthur, to R. McKay, Winnipeg	$940.15
Moosejaw, to D. J. McLean, Regina	37.80
Saskatoon, to C. W. Johnston, Saskatoon	37.20
Calgary, to G. Fyfe, Calgary	37.80
Vancouver, to J. J. Dulton, Vancouver	46.95
Making a total collection of	$1,099.90

(See detailed statement attached.)

Apart from the annual inspection I have, as chief weighmaster, made for the Board a second inspection during the year of all scales under my jurisdiction in the elevators at Fort William and Port Arthur, and the Government interior elevators at Moosejaw, Saskatoon, Calgary, and Vancouver.

EASTERN SCALE INSPECTION.

Inspection of scales in the elvators at the Bay ports and Eastern terminals is made semi-annually by Mr. A. A. Bowen, Inspector and Weighmaster for the Eastern Division, who sends to the Chief Weighmaster's office, monthly, reports of inspections made in his territory.

The salaries of the twenty-three (23) weighmen at western points are guaranteed by the firms for whom the weighing is done, and one is paid by fees.

On account of the comparatively short crop of 1917, the number of men on the staff has been kept as low as possible consistent with meeting the requirements.

WEIGHING.

Receiving from cars.—During the crop year ending August 31, 1918, there has been weighed into the elevators at the head of the Lakes, 118,247 cars of all grades of grain from the West, approximating 156,940,758 bushels.

SHORTAGES—CARS.

Complaints of shortages on the out-turns of cars have been somewhat numerous during the past season. The majority, however, being small shortages of from three (3) to ten (10) bushels, which could be accounted for by slight leaks or variation between loading and unloading scales, or where grain was weighed on outside scales, and the more serious shortages would appear to be due to several causes, namely: error in recording the number of drafts at loading, leaks found and repaired in transit, theft of grain from cars and accidents or mistakes in the delivery of grain from cars to scales at unloading.

In the latter case, where cars were carded with the loading weight, this information enables us to make an immediate investigation and adjustment; but where cars are not carded we use the approximate depth as a basis for determining the responsibility. All complaints received have been investigated and settlements amounting to 2,156 bushels secured or recommended.

In spite of railway police supervision, more or less pilfering of grain appears to be carried on.

WEIGHING TO VESSELS.

Year ending August 31, 1918—		
For Canadain ports, 441 cargoes approximate	78,889,410	bushels.
For American ports, 191 cargoes approximate	47,205,853	"
Total lake shipments	126,095,263	"

For American ports, 45,345½ tons elevator screenings.

SHORTAGES—VESSELS.

Notwithstanding a complete system of checking, and increased supervision over the weighing and loading of cargoes, there still continues to be numerous shortages reported on the out-turns of cargoes discharged at Canadian and American ports. While the average shortages on full amounts handled were only about one-half bushel per one thousand bushels, or very little above a natural shrinkage, there have been some individual cases of excessive shortages reported, the weighing and loading of which have been thoroughly investigated without finding any evidence of their having occurred at the loading houses. Two of these shortages, amounting to 2,700 bushels, were discovered on a re-weigh at the unloading elevators. Other cargoes could not be re-weighed on account of being mixed with grain of the same grade.

Settlement for two hundred and fifteen (215) bushels was made by one of the loading houses to cover a shortage due to a spill at loading. Every care is being taken to protect the accuracy of the outstore weights.

CAR SHIPMENTS.

During the crop year ending August 31, 1918, there have been 31,654,640 bushels of grain, and 21,494,193 pounds of mixed grain weighed for rail shipment east.

Complaints of shortage on car shipments have been comparatively few, and all complaints received have been investigated and reported on.

ANNUAL WEIGH-UP.

In accordance with instructions from the board, the annual weigh-up or audit of all grain in store in the elevators at Fort William and Port Arthur, was carried out under the supervision of the chief and assistant weighmasters, com-

mencing on July 15, and finished on August 23, over five and a half million bushels being weighed and transferred, and a true record of the different grades weighed at each elevator was forwarded to the board.

GOVERNMENT INTERIOR TERMINALS.

The annual weigh-up and inspection of scales in the Government interior terminals at Moosejaw, Saskatoon, and Calgary was made under my supervision, commencing September 15 and finished on September 24, and the records of the audits forwarded to the board.

ORGANIZATION.

Requests for Government weighmen to be stationed at outside points have been increased during the year, and experienced men have been transferred to several places to fill the requirements. Every effort is being used to keep up the efficiency of the weighing staff and the accuracy of weights.

(B)—LOADING PLATFORMS.

During the year 1917 the Board received a number of petitions for the erection and extension of grain loading platforms. As a result, however, of war conditions, and shortage of labour, the Board had to refuse several applications.

Orders were issued for the erection of grain loading platforms at the following points:—

Point.	Province.	Railway.	Size.
Buckland Siding	Saskatchewan	C. N. R.	2 Car.
Bradbury	Manitoba	C. P. R.	2 Car.
Fedora	Alberta	A. G. W. Ry.	2 Car.

Requests for the erection of platforms at Rosedale and Thorold were refused.

Loading platforms were ordered extended or repaired at:

Point.	Province.	Railway.	Size.
Burrows	Saskatchewan	C. P. R.	2 Car.
Gallivan	Saskatchewan	G. T. P.	Repaired.

While requests from the following points were refused:—Basswood, Kenville, Minnetonas, and Plenty.

(C)—CARS OUT OF TURN.

By virtue of section 207 of the Canada Grain Act, the Board is accorded certain discretionary powers in connection with the supplying of cars for the shipment of grain at country points.

During the crop year 1917-18 the Board ordered 2,423 cars to be supplied out of turn for the relief of elevators in danger of collapse, for the shipment of seed grain, and for grain urgently required for feeding and milling purposes.

(D)—COMPLAINTS.

During the crop year 1917–18 the board dealt with eighty-nine complaints relating to inspection and weighing of grain, shipments *ex* country elevators, etc.

(E)—DEFAULTS.

1. *Western Grain Company, Edmonton, Alta.*—This firm was licensed to operate as grain commission merchants and track buyers, bonds being filed in the sum of $5,000 each, in conjunction with the Employers' Liability Assurance Corporation. Nineteen claims were filed with the Board, totalling $1,450.32. The bonding company has paid eighteen claims, amounting to $910.32, leaving one claim of $540.00 still to be settled.

It is fully anticipated that the remaining claim will be satisfactorily disposed of in the course of a few days.

2. *Brandon Grain Co., Ltd., Brandon, Man.*—This company was licensed to operate as track buyers of grain, bond in the sum of $10,000 being filed in conjunction with the London Guarantee and Accident Co., Ltd. Twelve claims totalling $18,821.72 were filed with the Board. On investigating the claims, the Board found that none of the transactions were track purchases, so that no claim could be made on the bonding company. The secretary of the company was later arrested, charged with forgery of signatures on two Bills of Lading, and sentenced to two years' imprisonment.

Several claimants have stated it is their intention to bring civil suits against the company to recover the amount of their claims.

3. *Maclennan Bros., Winnipeg.*—F. B. Maclennan, trading as Maclennan Bros., was licensed to operate as grain commission merchant and track buyer of grain, bonds being filed in conjunction with the Ocean Accident and Guarantee Corporation, Ltd., as grain commission merchants $10,000, and track buyers $25,000. Seven claims, totalling $13,178,68, were filed with the board. On investigation the board found that all the claims were within the scope of the bonds filed, and they have been paid by the surety company.

4. *Strong & Dowler, Calgary.*—This firm was licensed to operate as country warehousemen, grain commission merchants, and track buyers of grain. Bonds aggregating $125,000 were filed in conjunction with the Globe Indemnity Company of Canada. There have been filed with the Board nineteen claims, totalling approximately $30,000, but Messrs. Strong & Dowler have since paid about 60 per cent of this amount. The Board has received assurance that the balance will be paid in the near future.

5. *Canadian Farmers' Hay Exchange, Ltd., Winnipeg.*—This company was licensed to operate as grain commission merchants, bond in the sum of $7,500 being executed by the Railway Passengers' Assurance Company. Thirty claims totalling approximately $20,000 have been filed with the board, of which three, amounting to $2,300, have since been paid. The board has not yet determined the liability of the surety company with regard to the other claims, but it would

appear from evidence submitted that several of them do not come within the scope of the commission merchants' bond.

6. *Canadian Grain Company, Limited, Saskatoon.*—This company was licensed during the crop year 1916–17 to operate as country warehousemen, grain commission merchants, and track buyers. Bonds aggregating $41,300 were filed in conjunction with the London Guarantee and Accident Company. The company did not secure licenses or bonds for the year 1917-18, but continued to operate, and owing to financial difficulties had to suspend payment during the month of November.

About fifty claims were filed with the Board, amounting to approximately $120,000. Upon investigation by the Board, it was found that only two claims, totalling $9,732.78, related to transactions prior to the expiration of the bonds on August 31, 1917. Both these claims were paid by the bonding company, on the order of the board.

All the other claims were filed with the liquidator in the ordinary way, to rank against the assets of the company when the business is wound up by the liquidator.

Amongst the assets of the company in liquidation are several claims against farmers for the non-fulfilment of contract. These farmers contracted to deliver to the Canadian Grain Company certain quantities of grain, but when prices advanced, the farmers sold their grain elsewhere for the higher prices, and consequently could not fulfil their contracts. As the Canadian Grain Company had sold the grain covered by these contracts, they were obliged to buy at the higher prices in order to fulfil their contracts. The loss sustained in this manner was one of the factors which brought about the subsequent default. The Board understands the liquidator is proceeding against all those farmers who entered into contracts, through the Civil Courts, and if judgment is rendered in favour of the liquidator and judgment realized, the proceeds will add considerably to the assets which are to be distributed among the creditors.

This being an incorporated company, the only penalty which the board could impose, in accordance with the provisions of section 244 of the Canada Grain Act, would have been a fine, which in this case would have been worse than useless, as the assets were already reduced to practically nothing, and even had there been sufficient funds to cover any fine imposed, this would have taken that amount of money away from the creditors, who had already suffered heavy losses.

In order to remedy this condition the Board has included in its proposed amendments to the Act, one which provides that if any corporation is convicted of an offence under the Act, every officer of such corporation and every person interested in or employed by the said corporation who had any part or share in the commission of such offence, shall also be personally liable to the penalties provided in the Act.

TARIFF OF LICENSED COUNTRY ELEVATOR CHARGES.

For the year ending August 31, 1918; effective September 1, 1918.

Subject to the capacity of the elevator and the nature of the construction, all grain tendered must be taken into store upon the following terms and conditions, and under the provisions of The Canada Grain Act, 1912.

Maximum Rates.—Receiving, elevating, spouting, insurance against fire, storing for the first fifteen days, and putting into cars on track. No elevator shall charge more than one and three-quarters of a cent per bushel. Storage not otherwise provided, including insurance against fire for each succeeding day after the first fifteen days shall not exceed one-thirtieth of one cent per bushel.

Shrinkage for stored grain.—No elevator shall take more than one-half of one per cent to take care of shrinkage and waste in handling, storing, and transmitting the grain to a terminal.

No elevator shall take more than one per cent shrinkage on tough, damp, and wet grain.

Dockage on Cash Grain.—On street grain no elevator shall take a greater dockage than that shown by a proper test over a number ten sieve, except where grain contains foreign grain or seeds which cannot be taken out by a number ten sieve.

Dockage.—No elevator shall take a greater dockage than that shown by a proper test over a number ten sieve, except where grain contains foreign grain or seeds which cannot be taken out by a number ten sieve.

Every elevator must be equipped with the necessary sieves and scales for making proper tests, and the elevator operator must make the tests in the presence of the owner of the grain when requested.

General.—When tough, damp, or wet grain is taken into store it shall be at the owner's risk, and the elevator operator shall have the right to ship it immediately to a terminal elevator for treatment.

The owner shall have the right to name the terminal elevator to which it shall be shipped.

RULES AND REGULATIONS FOR COUNTRY ELEVATORS.

1. The owner or operator of a country elevator shall post in the elevator, in a conspicuous place, a diagram, to a scale of not less than one-half inch to one foot, showing the location and numbers of the several bins in such elevator.

2. In shipping or delivering any grain stored in a country elevator the net weight on the ticket or tickets shall be final, unless an investigation by the Board of Grain Commissioners shows reason for the contrary. The shipper to be paid in case of short shipment up to the amount of his or her ticket or tickets for the full billing capacity of the car, at the same price as the car was disposed of.

3. All shipping bills for grain shipped through an elevator shall be made out by the elevator agent, and he shall advise such parties as the owner may instruct.

4. The elevator shall, on all grain shipped through the elevator, have the right to retain and hold the shipping bill until he receives a guarantee from the owner of the grain, another elevator owner, a licensed commission firm, or individual or any one else that the car may be sold to, that they will make proper adjustment as to the weight and grade. Upon receipt of storage tickets and lawful charges, the elevator owner shall deliver either the shipping bill to the party presenting the ticket or tickets, or a terminal warehouse receipt for the full amount of the grain called for in the ticket or tickets presented, up to the full carload.

5. The owner of grain in an elevator wishing such grain shipped to any point other than a terminal point, or where Government weights cannot be obtained, he must then accept the elevator weights at the shipping point as final unless he proves the shipping weights are not correct. Provided, however, that the owner of the grain can always demand an affidavit as to the actual grain shipped and delivered from the elevator operator and receiver of said grain respectively.

6. "No owner or operator of a country elevator or warehouse shall sell, assign, mortgage, pledge, or hypothecate any grain stored in such elevator or warehouse, for which graded storage tickets or 'subject to grade and dockage' tickets or special bin tickets have been issued, and the owner or operator may be required by the Board to produce at any time proper registered warehouse receipts or bills of lading for such grain as has been shipped from the country elevator or warehouse, and for which there is still outstanding graded storage tickets or 'subject to grade and dockage' tickets or special bin tickets."

SESSIONAL PAPER No. 10c

RULES AND REGULATIONS FOR STORING GRAIN IN COUNTRY ELEVATORS WHERE THERE IS DISAGREEMENT AS TO GRADE AND DOCKAGE.

1. The ticket or tickets issued under and by virtue of these rules and regulations must have incorporated therein, at the time of issue, the grade offered by the elevator owner or operator to the owner of the grain, and the following words: "Subject to Inspector's Grade and Dockage."

2. The owner of the grain can only demand the quantity that the storage ticket or tickets call for.

3. In case there is a dispute as to the weighing accuracy of the receiving scales, it shall be incumbent upon the owner of the elevator to prove that the scales are weighing accurately.

4. A proper sample must be drawn from each wagon load by the elevator operator at the time of delivery, in the presence of the party delivering same, and such sample must be drawn satisfactorily to both the deliverer and the operator.

5. Such sample must be placed in a metal receptacle satisfactory to the owner of the grain.

6. After the grain is delivered the sample drawn must be properly mixed in the receptacle in which it has been placed. The owner and the elevator operator shall then take out of the quantity mixed at least three pounds, and place it in a receptacle, which must be numbered and sealed and so made that it can be securely locked. The receptacle shall be supplied by the elevator owner and secured by a padlock. The lock shall be provided by the owner of the grain, and he shall retain possession of the key. The receptacle and key shall thereupon be immediately forwarded to the Chief Inspector of Grain, Winnipeg, Man., all charges prepaid. After receiving the Inspector's certificate showing grade and dockage, the operating agent shall issue a storage ticket, showing grade and dockage, as given by the Chief Inspector, for the full amount of grain taken into store, and shall deliver to the owner at his request, in not less than carload lots, on track or at a terminal point, the grade and quantity the storage ticket calls for, after the owner has surrendered the storage receipts and paid or tendered all lawful charges against said grain.

7. The owner of the elevator shall, in all cases where grain is taken into store under the foregoing conditions, guarantee the grade and weight as specified in the storage ticket or tickets.

8. At the time of delivery of any grain where a ticket of this kind is being used, and it is agreed upon by the owner of the grain and the elevator operator that the grain is tough, damp, or wet, and the elevator operator marks such ticket or tickets: "Out of condition, tough, damp, or wet," then whatever grade such sample may receive from the Chief Inspector, it will still grade "tough, damp, or wet."

9. If the elevator operator fails at any time to draw and preserve such sample in the manner stated herein, the owner or operator must account to the owner of the grain for the grade designated by the said owner.

Approved by Board of Grain Commissioners for Canada,

R. HETHERINGTON, *Secretary.*

PREFACE.

The Criminal Statistics of Canada are collected, compiled and published under authority of the Act respecting the Dominion Bureau of Statistics, 8–9 George V, chapter 43.

The Introductory abstract of the present report has been written by Mr. E. H. St. Denis, the Secretary of the Bureau, and the tables prepared by Mr. R. E. Watts. A new feature introduced for the first time in the present report is a statement of the movement of population during the year in penitentiaries, jails and reformatories, collected under section 30 of the Statistics Act.

CRIMINAL STATISTICS OF CANADA, 1918

GENERAL ABSTRACT OF THE REPORT.

This report includes (1) indictable offences and (2) summary convictions. The indictable offences are divided into the following six classes: I, offences against the person; II, offences against property with violence; III, offences against property without violence; IV, malicious offences against property; V, forgery and offences against the currency; VI, other offences not included in the foregoing classes. Cases tried by Police or other Magistrates under the Acts respecting "Speedy Trials" and "Summary Trial by Consent," are counted with indictable offences. The summary convictions comprise all cases disposed of under the authority of the Act respecting summary proceedings before Justices of the Peace.

PART I. INDICTABLE OFFENCES.

According to the returns for the year ending 30th September, 1918, there were 21,747 charges and 17,370 convictions for indictable offences in the several provinces of the Dominion, as compared with 19,454 charges and 15,559 convictions the year before, being an increase of 2,293 or 11·78 per cent for charges, and an increase of 1,811 or 11·63 per cent for convictions during the year, distributed by provinces as follows:

CHARGES, CONVICTIONS AND ACQUITTALS.

Provinces.	1917.			1918.		
	Number of charges.	Number of convictions.	Percentage of acquittals.	Number of charges.	Number of convictions.	Percentage of acquittals.
Prince Edward Island	36	33	8·33	[illegible]	37	11·90
Nova Scotia	711	582	18 14	[illegible]	717	27·58

Ontario	8,576	6,924	19·26	[illegible]	8,313	19·12
Manitoba	1,319	1,090	17·36	[illegible]	1,364	15 65
Saskatchewan	1,420	1,065	25·00	[illegible]	1,099	22·17

British Columbia	1,548	1,234	20·28	1,138	859	24·52

Canada	19,454	15,559	20·02	21,747	17,370	20·13

From the above it will be seen that the number of convictions has increased during the year in all the provinces, except Alberta, British Columbia and the Yukon. The higher increases are found in Ontario, Quebec, Manitoba and Nova Scotia, and the larger decrease in British Columbia.

The ratios of criminality and population compared are given in the following statement for the year 1917 and 1918, by provinces.

Provinces.	1917.		1918.	
	Ratio of criminality p.c.	Ratio of population p.c.	Ratio of criminality p.c.	Ratio of population p.c.
Prince Edward Island	0.21	1.12	0.21	1.09
Nova Scotia	3.74	6.13	4.13	6.00
New Brunswick	2.14	4.36	1.92	4.27
Quebec	21.69	26.78	21.58	26.56
Ontario	44.50	32.79	47.85	32.36
Manitoba	7.01	6.84	7.85	6.93
Saskatchewan	6.85	8.06	6.33	8.30
Alberta	5.79	6.24	5.12	6.45
British Columbia	7.93	7.36	4.95	7.74

Northwest Territories	....	0.22	....	0.21
Total	100.00	100.00	100.00	100.00

From these figures it will be seen that the ratio of criminality is higher than that of population in Ontario and Manitoba, while the population figures are higher than those of criminality in the other provinces, for 1918.

Young Offenders.

The following table shows the number of young offenders with their percentage to the total number of convictions, for the years 1917 and 1918, by provinces.

Provinces.	1917.		1918.	
	Number of young offenders.	Percentage to total convictions.	Number of young offenders.	Percentage to total convictions.

British Columbia	176	14.26	200	23·28
Yukon	....	....	....	....
Canada	3,606	23.18	4,104	23·63

The above table shows an increase of 498 in the number of young offenders during the year, the larger increases being found in Prince Edward Island, Manitoba, Quebec, Ontario and British Columbia. The figures returned from Saskatchewan and Alberta, are again this year out of proportion compared with those given for the other provinces; the reason for the discrepancy is evidently due to the absence of details as required by the Act.

Among the young offenders found guilty of indictable offences in 1918, 1 was convicted for murder, 1 for manslaughter, 8 for carnal knowledge, 15 for indecent assault, 11 for aggravated assault, 54 for assault and battery, 14 for arson, 15 for false pretences, 76 for feloniously receiving, 8 for forgery,

88 for malicious injury to property, 992 for burglary and robbery and 2,725 for theft or larceny.

Out of the 4,104 young delinquents convicted of indictable offences during the year, 2,817 were tried by the several Juvenile Courts of the Dominion in the following cities.

Statistics showing the movement of population in the Dominion penitentiaries, as well as in the provincial jails and reformatories, are given for the first time in the present report. The figures were furnished, for penitentiaries and reformatories, by the wardens and chief officers of these institutions, and for jails by the sheriffs of the several provinces. The information secured gives, for the years 1917 and 1918, the number of persons in custody at the beginning of each year, those admitted and those discharged during the year, and finally the number in custody at the end of the year, as shown by the following tables:—

In tables XIII, XIV and XV, pages 271 to 276, are given the number of persons convicted of criminal and minor offences from 1876 (the first year these statistics were collected) down to the present year. The criminal offences are grouped irrespective of the courts by which they were tried; for instance, the figures under the first heading, "offences against the person", contain all cases of assaults, whether tried summarily by a Justice of the Peace or by a higher court, as well as threats and abusive language and all other offences against the person. Similarly the second and third columns, "Offences against property", contain the figures taken from both indictable offences and summary convictions, while the fourth column, "other felonies", only contains indictable offences.

As to minor offences, they are taken from summary convictions only, with the exception however of cases relating to keeping bawdy houses and inmates thereof taken from both divisions.

The figures indicate an almost steady increase in the number and ratio of convictions down to 1914, the first year of the war; then began a sharp decline till the year 1918, where a slight but appreciable increase is again recorded.

The tables show a general increase in offences against property and minor offences, rather than in offences against the person, which, with a continued fluctuation, show but little change; still, the year 1914 indicates the greatest number with 157 per hundred thousand of population, as against 82 three years later, the latter being the lowest figure recorded.

PREFACE.

La statistique criminelle du Canada est recueillie, compilée et publiée sous l'autorité de la Loi concernant le Bureau Fédéral de la Statistique, 8-9 George V, chapitre 43.

Le précis introductif du présent rapport a été écrit par M. E. H. St. Denis, le Secrétaire du Bureau, et les tableaux ont été préparés par M. R. E. Watts.

On a introduit pour la première fois dans le présent rapport un état du mouvement de la population durant l'année dans les pénitenciers, prisons et écoles de réforme, recueilli en vertu de l'article 30 de la «Loi de la Statistique».

STATISTIQUE CRIMINELLE DU CANADA, 1918

PRÉCIS COMPLET DU RAPPORT.

Ce rapport comprend (1) les délits criminels ou justiciables d'un jury et (2) les petits délits ou condamnations sommaires. Les délits criminels se divisent en six classes, à savoir: I, Outrages contre la personne; II, délits avec violence contre la propriété; III, délits sans violence contre la propriété; IV, dommages malicieux à la propriété; V, faux et délits par rapport à la monnaie; VI, autres délits non compris dans les classes précédentes. Les cas expédiés par les magistrats de police ou autres cours, en vertu des lois concernant les «procès expéditifs» et les «procès sommaires», sont compris dans les délits criminels; les petits délits ou condamnation sommaires ont rapport aux cas expédiés en vertu de la loi concernant les procédures sommaires devant les juges de paix.

PARTIE I. DELITS CRIMINELS.

D'après les rapports de l'année se terminant le 30 septembre 1918, il y a eu 21,747 accusations et 17,370 condamnations pour délits criminels dans les différentes provinces du Canada, comparativement à 19,454 accusations et 15,559 condamnations l'année précédente, soit une augmentation de 2,293 ou 11·78 pour cent dans les accusations, et une augmentation de 1,811 ou 11·63 pour cent dans les condamnations durant l'année, distribuées par provinces de la manière suivante:

Canada	19,454	15,559	20·02	21,747	17,370	20·13

Comme l'indique le tableau précédent, le nombre de condamnations a augmenté durant l'année dans toutes les provinces, excepté l'Alberta, la Colombie-Britannique et le Yukon. Les plus fortes augmentations se trouvent dans Ontario, Québec, Manitoba et la Nouvelle-Ecosse, et la plus faible dans la Colombie-Britannique.

Les proportions de la criminalité et de la population comparées sont données dans les colonnes suivantes pour les années 1917 et 1918, par provinces:—

Provinces.	1917.		1918,	
	Proportion de la criminalité p.c.	Proportion de la population p.c.	Proportion de la criminalité p.c.	Proportion de la population p.c.
Ile du Prince-Edouard	0.21	1.12	0·21	1·09

Total	100.00	100.00	100·00	100·00

On voit par les chiffres qui précèdent, que la proportion de la criminalité est plus élevée que celle de la population dans Ontario et Manitoba, tandis que les chiffres de la population sont plus élevés que ceux de la criminalité dans toutes les autres provinces en 1918.

Jeunes délinquants.

Le tableau suivant montre le nombre de jeunes délinquants avec les chiffres proportionnels par rapport au total des condamnations, pour les années 1917 et 1918:

Provinces.	1917.		1918.	
	Nombre de jeunes délinquants.	Pour-cent du total des condamnations.	Nombre de jeunes délinquants.	Pour-cent du total des condamnations.

Colombie-Britannique	176	14·26	200	23·28
Yukon	...	...	....	.. .
Canada	3,606	22 18	4,104	23·63

Les chiffres de ce tableau montrent que le nombre de jeunes délinquants a augmenté de 498 durant l'année; les plus fortes augmentations se trouvent dans l'Ile du Prince-Edouard. le Manitoba, Québec, Ontario et la Colombie-Britannique. On remarquera que les chiffres donnés pour la Saskatchewan et l'Alberta sont encore cette année hors de proportion, comparés avec ceux des autres provinces; l'écart étant évidemment dû à l'absence des détails voulus par la loi.

Délinquantes.

Le nombre de femmes trouvées coupables de délits criminels a augmenté de 2,473, qu'il était en 1917, à 2,499 en 1918, tel que l'indique le tableau suivant:—

Provinces.	1917.		1918.

D'après les chiffres qui précèdent, on voit que la proportion des délinquantes, par rapport à la totalité des condamnations, est audessus de la moyenne dans Québec et la Colombie-Britannique, et au-dessous dans toutes les autres provinces pour l'année 1918.

Le plus grand nombre de femmes condamnées devant les tribunaux de la province de Québec revient au district de Montréal, qui a fourni 943 des 1,047 condamnations rapportées pour toute la province en 1918, soit une proportion de 90 pour cent, attribuable en grande partie aux délits concernant les maisons de désordre, récemment classifiés parmi les délits criminels.

Du nombre de femmes trouvées coupables de délits criminels en 1918, une a été condamnée pour meurtre, une pour homicide non prémédité, 11 pour avortement et suppression d'enfant, 29 pour bigamie, 14 pour désertion et cruauté envers les enfants, 14 pour voies de fait graves, 26 pour voies de fait sur un officier de la paix, 54 pour voies de fait simples, 18 pour vol avec effraction, 18 pour fraude et faux prétextes, 34 pour recel, 24 pour faux, 885 pour vol simple ou larcin, et 1,234 pour avoir tenu et fréquenté des maisons de désordre.

Les tableaux XIII, XIV et XV donnent le nombre et la proportion des personnes condamnées pour délits criminels et petits délits, depuis 1876 (première année où cette statistique a été recueillie) jusqu'à la présente année. Les délits criminels ont été groupés sans tenir compte de la cour où la cause a été entendue: par exemple, les chiffres sous le premier en-tête, «Outrages contre la personne», comprennent tous les cas de voies de fait, qu'ils aient été expédiés sommairement par un juge de paix,ou jugés devant une plus haute cour; et ainsi pour les cas de menace et de langage injurieux ou tout autre délit contre la personne. De même les colonnes deux et trois, ayant rapport aux «délits contre la propriété», contiennent les chiffres pris dans les délits criminels et les petits délits, tandis que la quatrième colonne, «Autres délits», se rapporte aux délits criminels seulement.

Quant aux petits délits, ils ne comprennent que les cas qui ont été expédiés par les juges de paix en vertu de la loi concernant les procédures sommaires, excepté cependant les cas ayant rapport aux maisons de désordre tirés des deux divisions.

Les chiffres indiquent une augmentation presque constante quant au nombre et à la proportion des condamnations jusqu'à 1914, première année de la guerre, alors que s'accuse un brusque décroissement qui se continue jusqu'à 1918, où de nouveau se retrouve un faible accroissement.

Les tableaux indiquent une augmentation générale dans les délits contre la propriété et les petits délits, plutôt que dans les outrages contre la personne qui, avec une fluctuation continue, indiquent peu de changement; cependant l'année 1914 avec une proportion de 157 par cent mille de population fournit le chiffre le plus élevé, comparativement à 82, le chiffre le plus bas rapporté, trois ans après.
